

# Reading Test

65 MINUTES, 52 QUESTIONS

Turn to Section 1 of your answer sheet to answer the questions in this section.

## DIRECTIONS

Each passage or pair of passages below is followed by a number of questions. After reading each passage or pair, choose the best answer to each question based on what is stated or implied in the passage or passages and in any accompanying graphics (such as a table or graph).

### Questions 1-10 are based on the following passage.

This passage is adapted from Kirstin Chen, *Soy Sauce for Beginners*. ©2014 by Kirstin Chen. The narrator and her friend Frankie have come from California to work at Lin's Soy Sauce, the narrator's family's business in Singapore.

After I gave her a brief overview of everyone on the office floor—"Avoid the drama vultures in marketing; be nice to Fiona, she has more power than you'd expect"—Frankie and I hunkered down  
 5 to evaluate the work my cousin Cal had already done on the US Expansion Project. Given my cousin's love of shortcuts, his tendency to keep crucial information to himself, and his questionable vision of a more modern Lin's, we were skeptical  
 10 about whether his recommendations could be trusted.

From the start, I told Frankie she was in charge, and the arrangement seemed to please her. She got to work at once, methodically making her way through  
 15 Cal's files, hunting down marketing and sales people—and even my father—when I was of no help. If she noticed the way her new colleagues whispered about her American assertiveness, she didn't let it bother her.

In contrast, I treated the work like a college class: doing the minimum it took to get by. I tried to coerce Frankie into taking breaks by showing her hilarious pictures I'd found on the Internet and bombarding  
 20 her computer with inane instant messages. She'd indulge me for a minute or two before returning to

work, but after I emailed her a third cat picture, she spun around to face me and said, "Look, I realize your uncle hired me mostly as a favor to you, but I really think I can make a difference around here."

25 Duly chastised, I began to read the files she deemed most relevant, and the more I learned, the more I had to admit that some of this stuff was actually interesting. Who knew that specialty food producers from bastions of Americana as Gainesville,  
 30 Florida, and Louisville, Kentucky, had begun to experiment with artisanal soy sauce? According to a prominent food magazine, the Kentucky producer even aged its sauce in old bourbon barrels for an added whiff of smoke and local color. Top chefs all  
 35 over America were raving about the depth of flavor the smoky sauce brought to dry-aged filet mignon and buttery black cod. An avant-garde chef in Chicago had infused the soy sauce into butter. The resulting concoction was spread on bite-sized  
 40 brioche, topped with tobiko caviar, and served as the *amuse bouche* to his seventeen-course tasting menu.

One didn't need to pore over these files to discern the burgeoning excitement for all things natural and handmade—after all, Frankie and I both hailed from  
 45 San Francisco, the epicenter of the artisanal food movement. And yet Lin's was edging away from its traditional brewing methods.

I filled Frankie in: several months earlier, Uncle Robert's first move as president had been to purchase  
 50 the factory's first industrial fiberglass tanks, a decision my father had opposed. To avoid further angering my father, the tanks had been housed in a shed, out of sight. The new additions were large
