2014 Regional Convention Not For Kids:

Child Trafficking in the Indo- Myanmar Region Shukhdeba Sharma Hanjabam, Sapam Dilipkumar, Ningthoujam Rameshchandra, 2020-01-01 Human trafficking is one of the fastest growing illegal trades in the world which affects both developed and developing countries alike. This book has come to see the light of the day at this crucial juncture when the issue of human trafficking is rising all over the country. The north east region of the country particularly Manipur has been a fertile ground for child trafficking having source transit and destination. With rich material sources and insightful analysis it primarily focuses on the issues and challenges in combating child trafficking in the North East India particularly in the state of Manipur which shares a long and porous international boundary with Myanmar

Child Marriage in Humanitarian

Settings in the Arab Region Samira Atallah, 2016-11-15 This study tackles the issue of female child marriage in the Arab region particularly in conflict and humanitarian settings. It explores the causes of this problem with a distinction between such structural determinants as family and community relations and gender roles that have long been present in many Arab countries and such contextual determinants as instability, displacement and extreme poverty. It also investigates the economic and health effects of child marriage for young brides, their children and their communities especially in post-conflict contexts. The study also provides an overview of national obligations with regard to preventing child marriage as stipulated by international instruments and humanitarian laws. It concludes with policy recommendations to address the multifaceted dimensions of child marriage and its implications for the rights of the girl child

Refugee Rights and Policy Wrongs

Jane McAdam, Fiona Chong, 2019-07-01 Everyone has the right to seek asylum under international law. However, successive governments in Australia have declared the need to stop the boats whatever the cost be it human, economic, moral or legal. In this new book Jane McAdam and Fiona Chong find that Australia's policies towards refugees have hardened since their bestselling *Refugees: Why seeking asylum is legal* and Australia's policies are not. *Refugee Rights and Policy Wrongs* provides a wholly updated account of Australian refugee law and policy. Bringing facts to bear on a highly politicised debate, McAdam and Chong explain why Australia falls short of its own international commitments when it comes to policies on offshore processing, detention and boat turnbacks among others. This up to date account of Australia's refugee laws and policies could not come at a more crucial time and is a compelling reading for anyone seeking to understand the human impacts of Australia's practices. This book should be read by all Australians concerned about the inhumanity demonstrated by successive federal governments when dealing with refugees seeking our protection. Ian McPhee AO

Routledge Handbook of Childhood Studies and Global Development Tatek Abebe, Anandini Dar, Karen Wells, 2024-08-28

The Routledge Handbook of Childhood Studies and Global Development explores how global development agendas and processes of economic development influence children's lives. It demonstrates that children are not only the frequent targets or objects of development but that they also shape and influence processes of economic, political and sociocultural

development The handbook makes the case for the importance of placing children at the heart of development debates and demonstrates how researchers policymakers and practitioners can engage children in development Through reports on field research as well as a critical engagement with theories in development studies and childhood studies contributors contest normative assumptions about childhood and global development They tease out and tease apart the complex social historical cultural economic epidemiological ecological geopolitical and institutional processes transforming what it means to be young in the world today Showcasing research from both established scholars and early career researchers and with particular prominence given to the work of authors from the global south this book will be an essential reference for policymakers practitioners and for researchers and students across childhood studies education geography sociology and global development *Human Trafficking and Exploitation* Belachew Gebrewold,Johanna Kostenzer,Andreas Th.

Müller,2017-09-22 Human trafficking is a serious human rights violation that leads to the gross exploitation of its victims who are coerced into forced labor and slavery across the globe As the current migration movement and refugee situation reaches crisis point in Europe the risk of human trafficking from the Mediterranean Sea through Italy into Central and Western Europe has become a critical emergency Focusing on human trafficking along this route into Europe this book discusses the systematic exploitation of victims and the subsequent violation of human rights within an international context providing an overview of the causes regulation and prevention of the issue Academic researchers practitioners and policy makers are brought together to provide both theoretical perspectives and practice based approaches for addressing the issue of human trafficking As well as scholarly contributions from experts in the field the book also includes experiences and strategies of policy makers and practitioners from governmental and non governmental organizations along with the real life scenarios and practice reports Human Trafficking and Exploitation should be considered essential reading for academics policy makers advocates and activists interested in preventing human trafficking and protecting human rights It will also be of interest to those with research interests within the broader themes of law politics and international relations and social and health policy **Annual Report of the Special Representative of the Secretary-General for Children and Armed Conflict**

United Nations. General Assembly,2013 *Child Marriage, Rights and Choice* Hoko Horii,2021-11-18 This book addresses the issue of agency in relation to child marriage In international campaigns against child marriage there is a puzzle of agency While international human rights institutions celebrate girls exercise of their agency not to marry they do not recognize their agency to marry Child marriage usually defined as any formal marriage or informal union where one or both of the parties are under 18 years of age is normally considered as forced which is to say that it is assumed that are not capable of consenting to marriage This book however re examines this assumption through a detailed socio legal examination of child marriage in Indonesia Eliciting the multiple competing frameworks according to which child marriage takes place the book considers the complex reasons why children marry Structural explanations such as lack of opportunities and oppressive

social structures are important but not exhaustive explanations Exploring the subjective reasons by listening to children s perspectives their stories show that many of them decide to marry for love desire to belong to the community and for new opportunities and hopes The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency One that cannot but fail to respect and promote the agency of all regardless of gender race religion and age This book will be of interest to scholars students and practitioners in the areas of children s rights legal anthropology and socio legal studies
