

# HOW TO ANSWER THE MOST COMMON INTERVIEW QUESTIONS

## 1. PLEASE COULD YOU TELL ME A LITTLE BIT ABOUT YOURSELF?

In this case, the interviewer is looking to discover what about you would make a good fit for the job you are applying for and how you would work within the business. In answer to this question, you should keep your answers brief yet to the point. For example, you might say something like 'I am a driven person and I have proven this in my previous role, as you can see on my resume, my determination earned me a promotion twice within my first year.' You may then go on to talk about personal experiences within your career and private life which have some relation to the job you are looking to do.

## 2. WHAT IS THE REASON FOR LEAVING YOUR PREVIOUS JOB?

In short, the prospective employer is looking to find out whether or not you were fired or left for an unreasonable reason. You should be honest but avoid saying anything that may reflect badly on you. If the situation becomes uncomfortable, you can divert the subject to your achievements.

## 3. WHAT SALARY ARE YOU EXPECTING FROM THIS POSITION?

No employer wants to hear that you are expecting more than is usual for the job role but they also won't want you to aim lower than average as this shows that you don't have ambition. The best way to answer this question is to say that it is negotiable. If you are in any doubt as to what is reasonable, it is important to research the salaries of other people in this role.

## 4. WHAT GOALS AND AMBITIONS DO YOU HAVE FOR THE FUTURE?

This question may also come in other wordings such as 'Where do you see yourself five years from now?' But in essence, the answer should be the same, and that is to explain what you hope to have achieved within your career and in particular the role you are applying for. Talk about improving your skills and learning new ones and explain how you plan to reach any goals you have stated.

## 5. WHY ARE YOU THE BEST CANDIDATE FOR THIS POSITION?

This is where you need to sell yourself. Don't be shy and ensure that you mention anything that makes you stand out from the crowd after all this is your chance to show what an asset you will be to the company.

## 6. WHAT IS YOUR MAIN WEAKNESS?

This is somewhat of a trick question and should be approached with caution. You should never say that you have no weaknesses as this is impossible for any human being but instead, you should demonstrate how you overcome your weakness and turn it into a positive.

## 7. WHAT CAN YOU TELL ME ABOUT (COMPANY NAME)?

Many job interviewers will ask you to tell them about the company that you are interviewing with and it is a common mistake when people do not do their research. If you appear to not know a lot about the company, it is going to come across as you not being bothered whether you work for them or not. A good knowledge of the company can be very impressive and can often secure a position.

Have you been dreaming of a specific job in a specific career and you are ready to enter the job market? Have you been interviewing and not getting the job offers you have been desiring? Whether you have an interview scheduled tomorrow or if you just started your job search and are preparing well in advance for the interviews to come don't let your nerves get the better of you. In most cases all you need to score an amazing interview is to familiarize yourself with some of the common questions asked and start crafting your answers in advance. Though there are no guarantees that you will get the job of your dreams you can do a lot for job interview preparation to make sure that you are ready. Some interviews are easy but the best jobs often come after rigorous and tough job interviews that can be done by one or more people within that particular company. There are many things that you can do to make yourself the best candidate that they see and hopefully the one that they decide would be the best addition to their company. It may sound good to go into the interview without prepared answers thinking probably that if you prepare your answers will be stiff and sound rehearsed and if you just wing it your answers will sound natural and present the real you but I am afraid that may not be the way to look at it. Maybe it is not so bad to sound a little rehearsed and overly prepared. Maybe that slight stiffness will send the message that the job mattered to you enough that you did prepare. Someone who cares about how they present themselves must be more valuable than someone who wings it. The wing it person may come off as caviler, egocentric, narcissistic, conceited and just a big ole full of m self blowhard.
