Merit Badge Workbook

This workbook can help you but you still need to read the merit badge pamphlet.

This Workbook can help you organize your thoughts as you prepare to meet with your merit badge counselor.

You still must satisfy your counselor that you can demonstrate each skill and have learned the information.

You should use the work space provided for each requirement to keep track of which requirements have been completed, and to make notes for discussing the item with your counselor, not for providing full and complete answers.

If a requirement says that you must take an action using words such as "discuss", "show", "tell", "explain", "demonstrate", "identify", etc, that is what you must do.

Merit Badge Counselors may not require the use of this or any similar workbooks.

No one may add or subtract from the official requirements found in Scouts BSA Requirements (Pub. 33216 - SKU 653801).

The requirements were last issued or revised in 2020 • This workbook was updated in June 2020.

Watching people protest one hypothesis is that underlying these actions for specific justifiable causes is a sense of wishing to belong of wishing not to be alone Recent knowledge from patients and empirical research shows the importance of belonging to groups to both psychological and physical well being The problems of many students minority group members immigrants terrorists and lonely people are linked to an insufficient sense of belonging Whereas psychoanalytic theory has focused on the need for a secure attachment to a primary caretaker it has failed to note the importance of a sense of belonging to the family group a friendship group a community a religious group a nation state etc This book demonstrates the difficulties faced by those who immigrate those who never feel a sense of their true selves as belonging in a family or a cohesive professional group and the difficulties of psychoanalysts themselves in knowing where they belong in patients lives The problems of breaking up marital and professional relationships as well as our relationship with the Earth are also discussed Freudian theory rejected the idea of a sense of oneness with humanity as being infantile Recent developments regarding the similarities between meditational practices and psychoanalysis have questioned Freud s idea This book shows the importance of an interpersonal relational psychoanalysis focusing on real relationships and not simply one that examines inner conflicts It will be useful to psychologists other mental health practitioners social scientists and anyone with normal struggles in life
