

Which Car Brands Make the Best Vehicles?

We ranked 32 brands based on the Overall Scores of their models, which include road tests, reliability, satisfaction, and safety

By Jeff S. Bernstein and Anna Lam
February 16, 2022

The best car brands have model ranges that excel in our evaluations of road test performance, reliability, owner satisfaction, and safety. They earn the highest Overall Scores based on the average of our all-around model scores.

BMW, Subaru, Volvo, and Honda consistently lead in the car maker by delivering in four areas, from their base models to their highest vehicles. BMW topped the top spot this year thanks to especially strong midline performance and solid owner reviews.

Subaru leads the luxury leg in rank this year, helping position the car maker as a high-end reliability leader. Thanks to the strength of its reliability and safety scores, the Chrysler Group's mid-range cars, despite being in the well below average reliability of the full Chrysler model range, benefit with the quality, the Chrysler, and Dodge's significant year-over-year sales.

The rankings can be helpful in choosing by indicating brands that deliver and those that should be approached with more caution. The brands that lead in the base car show the road is full ahead in our road tests and safety with reliability. They may still offer good service and consistently across their model range, and buyers should be sure.

To be included in the brand ranking, a brand has to have at least two models ranked in a brand like, Renault, Infiniti, Acura, and Honda aren't included in our rankings this year for the first time.

How We Rank the Car Brands

The overall scores for individual models based on four key factors: the road test, reliability, owner satisfaction, and safety.

For the road test scores, we use subjective ratings from 10 tests and evaluations.

Predicted reliability ratings are based on problems reported by owners in 12 months across 100,000 total miles driven.

Owner satisfaction predictions are based on whether 100,000 owners will not or will regret the choice they made when they bought the car.

Safety includes an assessment of any available crash test results and ratings, as well as ratings for vehicles that were involved in safety-related incidents.

Score reflects the average of a brand's 12 model scores across the categories. A brand is in the top 10 percent of reliability with the lowest reliability, according to the NHTSA.
