#### 14 Grade 9 November Maths Memo:

**The Mathematics Teacher**, 1947      **Milestones and Millstones** Otto N. Larsen, From the 1960s onwards the clothing industry in the Netherlands and elsewhere in the European Union experienced a deep crisis Numerous went bankrupt and even more so workers lost their jobs Imports from low wage countries started providing the bulk of retailers collections In the high wage economy of the Netherlands there seemed to be no more room for labour intensive industry such as clothing However in the 1980s a surprising development took place In Amsterdam a substantial number of new small clothing firms were established focusing on short cycle fashion production Most of these firms were run by Turkish immigrants During the 1990s most of these firms disappeared again At the same time the pattern of imports changed as well with nearby countries in the Mediterranean region and Eastern Europe increasing their share of the fashionable clothing market Migration and fashion played an important role in these processes In this study Stephan Raes analyses these developments and tries to explain why they occurred He offers an elaborate multilevel theoretical framework to deal with the changes in the spatial organization of clothing supply His analysis shows how large retailers have become the most powerful players in the Dutch clothing sector and how the changes in the spatial pattern of clothing supply have to be understood against the changing logistics of their sourcing The study takes us from the history of the Dutch clothing industry in the 19th century to the detailed description of migrants entrepreneurs in the sector and the changes in trade patterns It focuses on the interaction of retailers with other actors in the sector such as suppliers consumers and governments Finally it takes places these developments against the background of transformations in the political economy of the Netherlands and Turkey

**Memorandum**, 1961      Stolen Youth Bethany Mandel, Karol Markowicz, 2023-03-05 The kids are not alright The Left is waging an all out battle on the American family particularly the youngest members If they can make our children miserable lead them to question every building block of society and rebuild their entire concept of reality then the Left and their woke indoctrinators will consider that a victory But we can't let them win As concerned parents and American citizens we have to understand what truly going on before we can do something about it Stolen Youth provides an urgent deep dive into issues surrounding the current woke indoctrination happening in politics education medicine mental health entertainment and culture These issues may seem subtle insidious and hard to make sense of but armed with the information provided in this book we now have a framework from which to fight While we may simply be trying to parent our children well and create a healthy and happy home environment this is no longer enough We must now go on the offense to protect our kids and this book sheds a bright light on the reason why We can no longer afford to stay ignorant Our children's lives and the survival of our families are at stake A win is a family who is free Stolen Youth outlines how to fight for our children's freedom and win
