**Personal Current Account Banking Services in Northern Ireland Market Investigation** Great Britain: Competition Commission, 2006-11-22 The Commission s report examines the market for personal current account PCA banking services in Northern Ireland following on from a supercomplaint made by Which and by General Consumer Council for Northern Ireland under the Enterprise Act 2002 This provisional report finds that banks have unduly complex charging structures and

practices which are not sufficiently explained and customers generally do not actively search for alternative PCAs or switch provider It concludes that despite significant changes in recent years without effective remedial action the market as a whole will remain uncompetitive

**Competitive Intelligence** Mr Christopher Murphy, 2012-09-28 Every business manager needs intelligence to find suppliers mobilize capital win customers and fend off rivals Obtaining this is often an unplanned instinctive process The manager who has a conscious systematic approach to acquiring intelligence will be better placed to recognize and seize opportunities whilst safeguarding the organization against the competitive risks that endanger its prosperity and sometimes even its survival Christopher Murphy s Competitive Intelligence explains the theory of business competition how companies try to get ahead of their rivals methods of research and sources of information that generate the raw material for creating intelligence analytical techniques which transform the mass of facts and opinions thus retrieved into a platform of sound useable knowledge to support informed business decision making The text includes plenty of examples and experiences from the author s own consulting experience He draws on a wide variety of disciplines including literary criticism or how to read between the lines of company reports announcements and media stories and anthropology

understanding corporate culture as well as the more obvious ones such as financial analysis management theory and business forecasting techniques This fusion of insights from many fields of expertise provides a very readable practical and imaginative framework for anyone seeking to gather and make effective use of market and company data While focused on the British business environment the lessons drawn are of universal application and examples are taken from across the globe In addition a chapter is devoted to researching industries and companies in other countries Although primarily concerned with commercial enterprises many of the principles and techniques will also be of considerable practical relevance to managers in the public sector or not for profit organizations Competitive Intelligence also provides a legal and ethical framework to guide the unwary and to curb the over enthusiastic The final chapter Intelligence Countersteps will open your eyes to the need to protect your own organization from some of the practices of less scrupulous researchers and investigators
