Computers and Society Ronald M. Baecker, 2019 Computers and Society explores the history and impact of modern technology on everyday human life considering its benefits drawbacks and repercussions Particular attention is paid to new developments in artificial intelligence and machine learning and the issues that have arisen from our complex relationship with AI

**Surveillance Law, Data Retention and Human Rights** Matthew White, 2024-09-16 This book analyses the compatibility of data retention in the UK with the European Convention on Human Rights ECHR The increase in the use of modern technology has led to an explosion of generated data and with that a greater interest from law enforcement and intelligence agencies In the early 2000s data retention laws were introduced into the UK and across the European Union EU This was met by domestic challenges before national courts until a seminal ruling by the Court of Justice in the European Union CJEU ruled that indiscriminate data retention was incompatible with EU law Since then however the CJEU has revised its position and made certain concessions particularly under the guise of national security This book focuses on data retention in the UK with the principal aim of examining compatibility with the ECHR This is explored through a variety of ways including providing an account of democracy and why secret surveillance poses a threat to it a history of data retention assessing the seriousness that data retention poses to fundamental rights the collection of rights that are affected by data retention which are crucial for a functioning democracy the implications of who can be obligated to retain and what to retain the idea that data retention is a form of surveillance and ultimately with all things considered whether this is compatible with the ECHR The work will be an invaluable resource for students academics researchers and policy makers working in the areas of privacy human rights law and surveillance

**Ebook: Business Driven Information Systems** Paige Baltzan, Amy Phillips, 2014-10-16 Business Driven Information Systems 4e discusses various business initiatives first and how technology supports those initiatives second The premise for this unique approach is that business initiatives should drive technology choices Every discussion first addresses the business needs and then addresses the technology that supports those needs This updated edition provides the foundation that will enable students to achieve excellence in business through its updated case studies closing cases technology plug ins expanded IT topics and new project management content Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point of strength for an organization and McGraw Hill's online learning and assessment solution Connect MIS helps students apply this knowledge

Privacy and Identity in a Networked Society Stefan Strauß, 2019-04-16 This book offers an analysis of privacy impacts resulting from and reinforced by technology and discusses fundamental risks and challenges of protecting privacy in the digital age Privacy is among the most endangered species in our networked society personal information is processed for various purposes beyond our control Ultimately this affects the natural interplay between privacy personal identity and identification This book investigates that interplay from a systemic socio technical perspective by combining

research from the social and computer sciences It sheds light on the basic functions of privacy their relation to identity and how they alter with digital identification practices The analysis reveals a general privacy control dilemma of digital identification shaped by several interrelated socio political economic and technical factors Uncontrolled increases in the identification modalities inherent to digital technology reinforce this dilemma and benefit surveillance practices thereby complicating the detection of privacy risks and the creation of appropriate safeguards Easing this problem requires a novel approach to privacy impact assessment PIA and this book proposes an alternative PIA framework which at its core comprises a basic typology of personally and technically identifiable information This approach contributes to the theoretical and practical understanding of privacy impacts and thus to the development of more effective protection standards This book will be of much interest to students and scholars of critical security studies surveillance studies computer and information science science and technology studies and politics

*Privacy in the Digital Age* Nancy S. Lind, Erik T. Rankin, 2015-06-19 A collection of expert essays examines the privacy rights that have been lost in the post 9 11 era giving students and others the knowledge they need to take back their constitutional protections This timely two volume collection shares information every citizen should have tackling the erosion of privacy rights engendered by the ability of digital technology to intercept mine and store personal data most often without the knowledge of those being monitored Examining its subject through the lens of Fourth Amendment rights the work focuses on technological advances that now gather personal data on an unprecedented scale whether by monitoring social media tracking cell phones or using thermal imaging to watch people s movement It also examines the possible impact of the widespread gathering of such data by law enforcement and security agencies and by private corporations such as Google Organized by hot button topics confronting U S citizens in the post 9 11 era the work reviews the original intent of the Fourth Amendment and then traces the development and erosion of interpretations of that amendment in the 21st century Topical essays offer a comprehensive treatment and understanding of current Fourth Amendment issues including those that have been brought before the courts and those relative to the continuing governmental and societal emphasis on security and public safety since the Columbine shootings in 1999 and the events of September 11 2001
