### Ninth Grade Reading Comprehension 10: Unlucky Pizza Guy

There once was a pizza delivery guy named Mike. He was a hardworking young man who always made sure to deliver his pizzas on time. One day, he received an order for a large pepperoni pizza with extra cheese. It was a busy night, but Mike was determined to deliver the pizza on time.

As he was driving to the customer's house, he suddenly hit a pothole in the road. The pizza flew out of the box and landed upside down on the car seat. Mike was devastated but knew he had to deliver the pizza.

When he arrived at the customer's house, he nervously knocked on the door. A man answered, and Mike explained what had happened to the pizza. The man looked inside the box and burst out laughing.

"What's so funny?" Mike asked.

The man replied, "Well, I ordered a pizza with extra cheese, but I didn't know it would come with extra seat cushion."

Mike was mortified, but the customer assured him that it was a funny mistake, and he would still pay for the pizza.

As Mike drove back to the pizza shop, he couldn't help but laugh at the absurdity of the situation. He knew he would never forget the day he delivered a pizza with extra seat cushion.

Questions:

1. What was the pizza delivery guy's name?
2. What was the order for the pizza?
3. What happened to the pizza on the way to the customer's house?
4. How did the customer react when he saw the pizza?
5. Did the customer pay for the pizza?

Summary question: What was the mistake that the pizza delivery guy made while delivering the pizza?

**Academic Literacy and the Nature of Expertise** Cheryl Geisler, 2013-11-05 The first full length account integrating both the cognitive and sociological aspects of reading and writing in the academy this unique volume covers educational research on reading and writing rhetorical research on writing in the disciplines cognitive research on expertise in ill defined problems and sociological and historical research on the professions The author produced this volume as a result of a research program aimed at understanding the relationship between two concepts literacy and expertise which traditionally have been treated as quite separate phenomena A burgeoning literature on reading and writing in the academy has begun to indicate fairly consistent patterns in how students acquire literacy practices This literature shows furthermore that what students do is quite distinct from what experts do While many have used these results as a starting point for teaching students how to be expert the author has chosen instead to ask about the interrelationship between expert and novice practice seeing them both as two sides of the same project a cultural historical professionalization project aimed at establishing and preserving the professional privilege The consequences of this professionalization project are examined using the discipline of academic philosophy as the site for the author's investigations Methodologically unique these investigations combine rhetorical analysis protocol analysis and the analysis of classroom discourse The result is a complex portrait of how the participants in this humanistic discipline use their academic literacy practices to construct and reconstruct a great divide between expert and lay knowledge This monograph thus extends our current understanding of the rhetoric of the professions and examines its implications for education *Resources in Education*, 1987 **Bulletin** United States. Hay, Nancy Butler Songer, Daniel T. Hickey, 2017-09-05 William Wordsworth 1770 1850 needs little introduction as the central figure in Romantic poetry and a crucial influence in the development of poetry generally This broad ranging survey redefines the variety of his writing by showing how it incorporates contemporary concepts of language difference and the ways in which popular and serious literature were compared and distinguished during this period It discusses many of Wordsworth's later poems comparing his work with that of his regional contemporaries as well as major writers such as Scott The key theme of relationship both between characters within poems and between poet and reader is explored through Wordsworth's construction of community and his use of power relationships A serious discussion of the place of sexual feeling in his writing is also included *Journal of Reading*, 1987 **Neuropsychological Testing: From Psychometrics to Clinical Neuropsychology** Alessio Facchin, Elisa Cavicchiolo, Edgar Chan, 2025-02-10 Neuropsychological testing represents an essential part of the clinical examination of neuropsychological patients and these measures remain the primary instrument

for clinical research in neuropsychology For these reasons old procedures were psychometrically investigated to assess their metrical properties As a result of the redesigned procedures old tests were improved in terms of their psychometric properties and characteristics The field of neuropsychological testing needs to be updated with new research in order to improve the clinical practice of neuropsychological testing the psychometric characteristics of new neuropsychological tests and the theories behind the testing in a circular way In this research topic we want to report recent advances and changes from old standard diagnostic testing to more recent procedures and methods in the area of cognitive testing Applications comparisons novel definitions and measures updated procedures and psychometric properties of existing instruments measurement invariance reliability repeatability specific norms particular applications and use in specific patients are all welcome Open access tests methods and procedures are encouraged together with studies that follow the Open Science initiative This topic joins two different backgrounds in this area of research psychometrics and neuropsychology and all studies in these areas will be considered included reviews and meta analyses
