ALGEBRAIC EXPRESSIONS & PROPERTIES A.SSE.1, N.Q.2

A **variable** is a symbol that is used to represent an unknown quantity. An **algebraic expression** is a mathematical expression that contains one or more variables, one or more numbers, and one or more arithmetic operations.

Writing Expressions

Verbal expressions can be translated into algebraic expressions.

Verbal Expression	Algebraic Expression
a number decreased by 15	$n - 15$
8 less than 3 times a number	$3x - 8$
the quotient of a number and 2 plus 5 times the number	$\frac{n}{2} + 5n$
6 more than the cube of a number	$n^3 + 6$
a number increased by 3, quantity squared, divided by 5	$\frac{(n + 3)^2}{5}$

Order of Operations

The order of operations is a set of rules that determine which operations to perform first when evaluating a numerical expression.

1. Evaluate within grouping symbols.
2. Evaluate all powers.
3. Multiply and divide from left to right.
4. Add and subtract from left to right.

Properties of Real Numbers

For real numbers a, b, and c, the following properties are true.

Property	Expression
Commutative Property of Addition	$a + b = b + a$
Commutative Property of Multiplication	$a \cdot b = b \cdot a$
Associative Property of Addition	$a + (b + c) = (a + b) + c$
Associative Property of Multiplication	$a \cdot (b \cdot c) = (a \cdot b) \cdot c$
Distributive Property	$a(b + c) = a \cdot b + a \cdot c$
Additive Identity Property	$a + 0 = a$
Additive Inverse Property	$a + (-a) = 0$
Multiplicative Inverse Property	$a\left(\frac{1}{a}\right) = 1, a \neq 0$
Multiplicative Property of Zero	$a \cdot 0 = 0$

Properties of Equality & Substitution

For real numbers a, b, and c, the following properties are true.

Property	Description	Symbols
Reflexive Property	A number or quantity is equal to itself.	$a = a$
Symmetric Property	If a quantity is equal to another quantity, then the second quantity is equal to the first quantity.	If $a = b$, then $b = a$.
Transitive Property	If a quantity equals a second quantity and the second quantity equals a third quantity, then the first quantity equals the third quantity.	If $a = b$ and $b = c$, then $a = c$.
Substitution Property	If two quantities are equal, then one quantity may be substituted for the other in an expression.	If $a = b$, then b can be substituted for a in an expression, and vice versa.

Parts of an Expression

A **term** is a number, variable, or the product of numbers and variables in an expression. **Like terms** are terms that have the same variables raised to the same powers. Two quantities that are being multiplied in an expression are called **factors**. The **coefficient** of a term is the numerical factor of the term. A term that consists of a number and no variables is called a **constant**.

EX: Identify the terms, factors, and coefficients in the expression $-6n^2 + 4n - 2n$.
1. There are 3 terms: $-6n^2$, $4n$, and $-2n$.
2. The terms $4n$ and $-2n$ are like terms because they have the same variable raised to the same power.
3. The factors of the terms are -6, n, and n for the first term, 4 and n for the second term, and -2 and n for the third term.
4. The coefficients of the terms are -6, 4, and -2.

EX: To compute annual compound interest, you multiply the principal investment by the quantity of one plus the interest rate, raised to the number of years of compounding. Define quantities and write an expression to model compound interest. Describe the parts of the expression.
1. Define variables. Let P represent the principal investment, let r represent the interest rate, and let n represent the number of years.
2. Translate the verbal expression into an algebraic expression. "multiply the principal": P; "quantity of one plus the interest rate, raised to the number of years": $(1 + r)^n$. The expression is $P(1 + r)^n$.
3. Describe the parts of the expression. The expression contains two factors: P and $(1 + r)^n$. The first factor is the variable P. The second factor contains the variables r and n.

REASONING WITH QUANTITIES N.Q.1, N.Q.3

The units of a quantity can help you understand and solve multi-step problems.

Dimensional Analysis

Dimensional analysis is the process of using conversion factors to change from one set of units to another set of units.

EX: Jamie jogged 495 feet in 45 seconds. What was her speed in miles per hour? Write the given information as a ratio. Then use appropriate conversion factors to change units.

$$\frac{495 \text{ ft}}{45 \text{ s}} \cdot \frac{1 \text{ mi}}{5280 \text{ ft}} = \frac{1 \text{ mi}}{480 \text{ s}}$$

Convert from feet to miles.

$$\frac{1 \text{ mi}}{480 \text{ s}} \cdot \frac{60 \text{ s}}{1 \text{ min}} = \frac{1 \text{ mi}}{8 \text{ min}}$$

Convert from seconds to minutes.

$$\frac{1 \text{ mi}}{8 \text{ min}} \cdot \frac{60 \text{ min}}{1 \text{ hr}} = \frac{7.5 \text{ mi}}{1 \text{ hr}}$$

Convert from minutes to hours.

Jamie's speed was 7.5 miles per hour.

Modeling with Appropriate Units

When modeling with quantities, it is important to choose appropriate units.

Quantity	Common Units
length or distance	millimeter (mm), centimeter (cm), meter (m), kilometer (km), inch (in.), foot (ft), yard (yd), mile (mi)
mass or weight	centigram (cg), gram (g), kilogram (kg), ounce (oz), pound (lb), ton (T)
capacity or volume	milliliter (mL), liter (L), kiloliter (kL), fluid ounce (fl oz), cup (c), pint (pt), quart (qt), gallon (gal), cubic centimeters (cm³), cubic meters (m³), cubic inches (in.³), cubic feet (ft³), cubic yards (yd³)
area	square millimeters (mm²), square centimeters (cm²), square meters (m²), square kilometers (km²), square inches (in.²), square feet (ft²), square yards (yd²), square miles (mi²)

Accuracy & Precision

Accuracy describes how close a measured value is to the actual value.

EX: Thomas is 5 feet 10.25 inches tall. A measurement of 5 feet 10 inches is more accurate than a measurement of 6 feet when describing his height.

Precision describes the exactness of a measurement and is dependent on the unit of measure. The **precision unit** is the smallest unit on the tool being used to measure. As the units of measurement get smaller, the measurement gets more precise.

EX: A ruler that measures in millimeters is more precise than a ruler that measures in centimeters.

EX: For a scale that gives weight in pounds and ounces, the precision unit is ounces.

Just because a measure is more precise, does not mean it is more accurate.

EX: The actual length of a block of wood is 3 feet. A measurement of 5 feet 3 inches is more precise than a measurement of 4 feet, but it is less accurate than 4 feet which is closer to the actual length of 3 feet.

Math Practice 6: Attend to precision.
When solving multi-step problems, it is important to communicate precisely to others. This includes using appropriate units of measure, calculating accurately, and expressing numerical answers with an appropriate degree of precision.

Unveiling the Energy of Verbal Artistry: An Psychological Sojourn through **9th Grade Math Study Guide**

In some sort of inundated with monitors and the cacophony of fast conversation, the profound energy and psychological resonance of verbal beauty usually fade into obscurity, eclipsed by the regular barrage of sound and distractions. Yet, situated within the lyrical pages of **9th Grade Math Study Guide**, a interesting function of fictional elegance that pulses with organic feelings, lies an unforgettable journey waiting to be embarked upon. Composed with a virtuoso wordsmith, that magical opus manuals visitors on an emotional odyssey, softly revealing the latent possible and profound impact stuck within the complex internet of language. Within the heart-wrenching expanse of this evocative examination, we will embark upon an introspective exploration of the book is central styles, dissect its captivating writing design, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.

9th Grade Math Study Guide Introduction

In todays digital age, the availability of 9th Grade Math Study Guide books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of 9th Grade Math Study Guide books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of 9th Grade Math Study Guide books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing 9th Grade Math Study Guide versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, 9th Grade Math Study Guide books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing 9th Grade Math Study Guide books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for 9th Grade Math Study Guide books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-

profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, 9th Grade Math Study Guide books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of 9th Grade Math Study Guide books and manuals for download and embark on your journey of knowledge?

FAQs About 9th Grade Math Study Guide Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. 9th Grade Math Study Guide is one of the best book in our library for free trial. We provide copy of 9th Grade Math Study Guide in digital format, so the resources that you find are reliable. There are also many Ebooks of related with 9th Grade Math Study Guide. Where to download 9th Grade Math Study Guide online for free? Are you looking for 9th Grade Math Study Guide PDF? This is definitely going to save you time and cash in something you should think about.
