Imagine you had a choice between living an ordinary life for your actuarial life span or a very different kind of life Instead suppose you had the alternative of living a life in pursuit of an extraordinary love of acquiring a vast fortune and of achieving your life s dream but a life that was much shorter Which life would you choose Of course we are never given a choice but sometimes a few of us are by chance given the other life This is the story of a man who led such a life and of the woman who loved him **Eros and Ethos** Jason Stotts,2018-02-09 Sexual ethics has historically been a bleak landscape of three false

alternatives resist abstain or indiscriminately indulge In **Eros and Ethos** philosopher Jason Stotts presents a radical new alternative in which sex is an ethically important part of a rich human life He shows how sex is a significant expression of our character because sex arises out of the deepest and most fundamental parts of who we are On his account virtue lies in proudly bringing desire in line with our flourishing so that we can create rich and meaningful lives **The Fortnightly**

**Sacred Music, Religious Desire and Knowledge of God** Julian Perlmutter,2020-02-20 Many people find sacred choral music profound and deeply evocative even in societies that seem to be turning away from religious belief In this book Julian Perlmutter examines how in light of its wide appeal sacred music can have religious significance for people regardless of their religious convictions By differentiating between doctrinal belief and the desire for God Perlmutter explores a longing for the spiritual that is compatible with both belief and interested non belief He describes how sacred music can elicit this kind of longing thereby helping the listener to grow in religious openness The work of Thomas Merton is also analyzed in order to show that musically elicited desire for God can be incorporated into the Christian practice of contemplative prayer aimed ultimately at a union of love with God By exploring connections between desire knowledge and religious practice this engaging account illustrates how sacred music can have a transformative effect on one s wider spiritual life Of particular interest to philosophers and theologians the book makes a novel contribution to several topics including religious epistemology the philosophy of emotion and aesthetics **Healey** Jessie Fothergill,1875 *A Life's Assize* Mrs. J.
