Large-Scale Studies in Mathematics Education James A. Middleton, Jinfa Cai, Stephen Hwang, 2015-05-05 In recent years, funding agencies like the

Institute of Educational Sciences and the National Science Foundation have increasingly emphasized large scale studies with experimental and quasi experimental designs looking for objective truths Educational researchers have recently begun to use large scale studies to understand what really works from developing interventions to validation studies of the intervention and then to efficacy studies and the final scale up for large implementation of an intervention Moreover modeling student learning developmentally taking into account cohort factors issues of socioeconomics local political context and the presence or absence of interventions requires the use of large data sets wherein these variables can be sampled adequately and inferences made Inroads in quantitative methods have been made in the psychometric and sociometric literatures but these methods are not yet common knowledge in the mathematics education community In fact currently there is no volume devoted to discussion of issues related to large scale studies and to report findings from them This volume is unique as it directly discusses methodological issue in large scale studies and reports empirical data from large scale studies Cases on Technology Integration in Mathematics Education Polly, Drew, 2014-09-30 Common Core education standards establish a clear set of specific ideas and skills that all students should be able to comprehend at each grade level In an effort to meet these standards educators are turning to technology for improved learning outcomes Cases on Technology Integration in Mathematics Education provides a compilation of cases and vignettes about the application of technology in the classroom in order to enhance student understanding of math concepts This book is a timely reference source for mathematics educators educational technologists and school district leaders employed in the mathematics education or educational technology fields
