Reusing Open Resources Allison Littlejohn,Chris Pegler,2014-07-17 Every day learners use and reuse open digital resources for learning Reusing Open Resources offers a vision of the potential of these open online resources to support learning The book follows on from Reusing Online Resources A Sustainable Approach to E learning At that time focus was on the creation release and reuse of digital learning resources modeled on educational materials Since then the open release of resources and data has become mainstream rather than specialist changing societal expectations around resource reuse Social and professional learning networks are now routine places for the exchange of online knowledge resources that are

shared manipulated and reused in new ways opening opportunities for new models of business research and learning The goal of this book is to extend the debate of how open online resources might support learning across diverse contexts Twenty four distinguished experts from nine countries distributed across Europe and North America contribute empirical evidence and ideas Collectively they provide a vision of the potential of open online resources to support learning across everyday contexts of education work and life Connected Science Tricia A. Ferrett,David R. Geelan,Whitney M. Schlegel,Joanne L. Stewart,2013-07-10 Informed by the scholarship of teaching and learning SOTL Connected Science presents a new approach to college science education for the 21st century This interdisciplinary approach stresses integrative learning and pedagogies that engage students through open ended inquiry compelling real world questions and data rich experiences Faculty from a variety of disciplines and institutions present case studies based on research in the classroom offering insights into student learning goals and best practices in curriculum design Synthetic chapters bring together themes from the case studies present an overview of the connected science approach and identify strategies and future challenges to help move this work forward

The Times Index, January -December 2012 ,2012 Power, Legal Education, and Law School Cultures

Meera Deo,Mindie Lazarus-Black,Elizabeth Mertz,2019-10-10 There is a myth that lingers around legal education in many democracies That myth would have us believe that law students are admitted and then succeed based on raw merit and that law schools are neutral settings in which professors also selected and promoted based on merit use their expertise to train those students to become lawyers Based on original empirical research this book investigates this myth from myriad perspectives diverse settings and in different nations revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education Embedded within law school cultures are assumptions that also stymie efforts at reform The book examines hidden pedagogical messages showing how presumptions about theory s relation to practice are refracted through the obfuscating lens of curricula The contributors also tackle questions of class and market as they affect law training Finally this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open revealing common dynamics across cultural and institutional forms The chapters speak to similar issues and to one another about the influence of context images of law and lawyers the political economy of legal education and the agency of students and faculty
