The Nature of Fashion Carry Somers, 2025-11-04 If plants have shaped fashion s past couldn t they hold the secret to its future Vivid celebratory impassioned and angry The Nature of Fashion is an epic sweep through the history of how we learned to create clothing with plants revealing how textiles have transformed the human world and our natural landscape More than just a story about plant based fashion The Nature of Fashion chronicles the plant stewards obsessives innovators and profiteers who have shaped what we wear It is about the clash of worlds voracious exploitation and silenced voices about devotion passion blindness idealism greed and how clothing has separated us from nature Told through intimate vignettes into this past each person people group plant and place is a thread in the fabric of the book forging connections across place and time And like weaving as the story strands weave in and out the pattern slowly emerges As the centuries unfold we meet plants from every continent and understand the human stories of origin culture and community We see people and countries interact through trade conflict human and land exploitation and the age old struggle for riches and power The stories of yesterday find their echoes in today In every culture and every place each plant is part of an ecosystem and we see how the choices we once made shape landscapes and economies today Amidst human folly shine strands of hope and resilience cultures that have maintained their textile traditions human artistry that works in rhythm with the natural world and innovators who are finding new ways to produce fibres and dyes For thousands of years our clothes have been made by working with nature not against it Fashion is at a turning point to look forward we need to look back

The Publishers' Trade List Annual ,1984 *Light from the East* John Freely, 2010-12-18 Long before the European Renaissance while the western world was languishing in what was once called the Dark Ages the Arab world was ablaze with the knowledge invention and creativity of its Golden Age This is the story of how Islamic science which began with the translation of Greek manuscripts into Arabic in eighth century Baghdad preserved and enhanced the knowledge acquired from Greece Mesopotamia India and China Through the astrologers physicians philosophers mathematicians and alchemists

of the Muslim world this knowledge was carried from Samarkand and Baghdad to Cordoba and beyond influencing western thinkers from Thomas Aquinas and Copernicus and helping to inspire the cultural phenomenon of the Renaissance John Freely tells this spellbinding story against a background of the melting pot of cultures involved and concludes with the decline of Islam's Golden Age which led the West to forget the debt it owed to the Muslim world and the influence of medieval Islamic civilisation in forging the beginnings of modern science The Relationship Between Technology and Natural Philosophy, Ca. 1250-1650 as Illustrated by the Technology of the Mineral Acids Robert P.
