Advances in Quantitative Analysis of Finance and Accounting (New Series) 2012) Vol 10 Cheng F. Lee, Alice C. Lee, 2012-12-01 Advances in Quantitative Analysis of Finance and Accounting New Series is an annual publication designed to disseminate developments in the quantitative analysis of finance and accounting. The publication is a forum for statistical and quantitative analyses of issues in finance and accounting as well as applications of quantitative methods to problems in financial management, financial accounting and business management. The objective is to promote interaction between academic research in finance and accounting and applied research in the financial community and the accounting profession.

*CSR and Management Accounting Challenges in a Time of Global Crises* Oncioiu, Ionica, 2021-06-25 Modern companies are subject to increasing pressures to conduct their business in an environmentally responsible manner due to social and environmental problems. Management of sustainable performance is one of the phenomena faced by the current business environment and in particular management corporations. The focus of management on profitability remains the main objective of any company but it must also take into account the sustainability of social, economic and environmental aspects. Under these circumstances, managerial decisions need to be adjusted and strongly substantiated considering the information required by internal and external stakeholders including financial reporting. The information requirements of customers and other stakeholders are steadily increasing and some companies face certain problems in implementing the concept of sustainability and environmental reporting. *CSR and Management Accounting Challenges in a Time of Global Crises* is a comprehensive reference source that explores various theoretical and practical approaches of management accounting and its impact in the 21st century and investigates new accounting and financial approaches where economic and social aspects become mutually supportive to enhance their impact on community development. Covering topics such as CSR reporting, sustainability and greenwashing, this book is an essential resource for academicians, specialty organizations, chief financial officers, CFOs, financial controllers, business analysts, financial planning and analysis, FP A analysts, budgeting managers, students, researchers and business environment managers and specialists.

**Sustainability Reporting, Ethics, and Strategic Management Strategies for Modern Organizations** Oncioiu, Ionica, Căpușneanu, Sorinel, Topor, Dan Ioan, Constantin, Dana Maria (Oprea), 2020-07-24 Current modern companies which are also the key factors of a global economy are subject to increasing pressures to conduct their business in an environmentally responsible manner due to social and environmental problems. Improving long term environmental performance can bring economic benefits to those companies that are innovative and environmentally sensitive especially by integrating environmental information into their business strategies. Considering all the changes, sustainability reporting management and financial accounting becomes a powerful information tool for executives, managers and employee teams to gain insights and make better decisions. Along with concepts such as ethical controlling, auditing, management and financial accounting reporting provides value with the

decision making process All these debates underline the major responsibility of users when configuring accounting and finance models and thereby in modelling business information Sustainability Reporting Ethics and Strategic Management Strategies for Modern Organizations proposes an interdisciplinary perspective and explores various theoretical and practical approaches of ethical standards management accounting and their impact in the 21st century on different areas of activity It contrasts external financial accounting for government regulators and the investment community with internal management accounting for managers to leverage for decision making In addition the book examines the role of management accounting and sustainability reporting from other points of view such as ethical standards corporate social responsibility creative accounting green accounting environmental indicators e accounting KPI lean accounting controlling auditing reporting etc offering a number of new insights into management accounting It is intended for chief financial officers financial controllers business analysts financial planners financial analysts budgeting managers executives managers academicians researchers and students

Most university undergraduate and graduate audit classes are geared towards educating prospective auditors but do not provide education for those who will be audit clients and subjected to audits Future audit clients need to be educated as well as future auditors to ensure that there is a level playing field Those being audited do not receive the same level of formal education as internal auditors most client education occurs during the audit itself The client once subjected to an audit and faced with the consequences of a failed audit will learn via trial and error If left unprepared managers can suffer financial losses and promotional setbacks the preparation and education that is needed to be audit ready is lacking Of interest to accounting finance or business students and entry level practitioners this book provides the audit education and preparation that has been missing It shows how to interface with auditors helping to identify issues exposures and risks and adequately position current and future managers to achieve successful audits The book also provides mock audit simulation exercises to further prepare prospective audit clients
