

CHRYSLER 42RLE PRELIMINARY INFORMATION

Beginning at the start of production for the 2003 model year, Chrysler Corporation modified the 42LE (606) transmission and turned it into a Rear Wheel Drive called the 42RLE.

The majority of the transmission's internal parts as well as operating strategy is virtually identical as the 42LE with the exception of the rear drive section and the hypoid style final drive being eliminated. This transmission is available in both 2WD and 4x4 configurations. The gear ratios and clutch application are also the same as the 42LE.
