## CAUTION

- Contact each seating surface fully and evenly, tighten the bolt or nut temporarily, and finally tighten it to the specified torque.
- Have the injection pump assembly serviced by a BOSCH service station.
- Dirt and dust in the injection pump assembly can seriously detract from engine performance. To prevent this from happening, fully cover all open joints after removing any pipes or hoses.

## ● Installation sequence

Follow the removal sequence in reverse.

## CAUTION

- Make sure that the harness (marked with " \* ") of MPROP (rail pressure control valve) is connected to the supply pump before starting the engine. Starting the engine without connection causes a malfunction.
