The Shut Down Learner Richard Selznick, 2010-07-23 The Shut Down Learner is based on the author's clinical experience as director of a program in the pediatrics department of a large teaching hospital that assesses and treats a broad range of learning problems. He has consulted with thousands of families explaining complex data in straightforward terms understandable to the parents. He coined the term shut down learner to describe children who thrive with hands on tasks requiring visual and spatial abilities but who become discouraged by their difficulty mastering core academic skills such as reading and writing.
