**Economic Survey**, 2016      **How to Overcome the Antibiotic Crisis** Marc Stadler, Petra Dersch, 2016-12-21 This volume focuses on antibiotics research a field of topical significance for human health due to the worrying increase of nosocomial infections caused by multi resistant bacteria It covers several basic aspects such as the evolution of antibiotic resistance and the influence of antibiotics on the gut microbiota and addresses the search for novel pathogenicity blockers as well as historical aspects of antibiotics Further topics include applied aspects such as drug discovery based on biodiversity and genome mining optimization of lead structures by medicinal chemistry total synthesis and drug delivery technologies Moreover the development of vaccines as a valid alternative therapeutic approach is outlined while the importance of epidemiological studies on important bacterial pathogens the problems arising from the excessive use of antibiotics in animal breeding and the development of innovative technologies for diagnosing the bad bugs are discussed in detail Accordingly the book will appeal to researchers and clinicians alike      River Culture UNESCO, UNESCO Office in Beijing, 2023-01-05

*Unveiling Bleisure Travellers* Pooja Khanna, Tanveer Kajla, Nripendra Singh, 2025-10-28 The central focus of this exploration lies in the intelligent utilization of big data to understand consumer behavior and actively engage and enhance their social experiences      **Project Quality Management** Sui Pheng Low, Joy Ong, 2014-04-29 The book presents the development of the Construction Quality Assessment System CONQUAS Singapore's de facto quality performance measurement system explains the application of the Quality Management System QMS to manage CONQUAS and identifies 33 critical success factors CSFs for achieving high CONQUAS scores Through CONQUAS the reader benefits from understanding how the Singapore government developed and implemented the first objective system for measuring what many building professionals have perceived to be elusive quality standards in the construction industry The book presents both the theoretical concepts as well as the practical aspects to achieving strategic Project Quality Management that is anchored on the CSFs to building best practices To realistically reflect the practical aspects and challenging issues faced by stakeholders in the construction industry questionnaire surveys were conducted with building professionals to distinguish the importance level and extent of adoption of the 33 CSFs identified from a comprehensive review of the extant literature in influencing and affecting the achievement of high CONQUAS scores These were further anchored by in depth interviews with quality experts in the Singapore construction industry to provide a better understanding of issues relating to strategic Project Quality Management Collectively the empirical findings collated from the building professionals suggest that while the CSFs identified are known tenets of quality these were still not being followed in their totality A further case study was conducted through a formal set of in depth interviews with the quality assurance team of a construction company who has direct involvement before during and after their tremendous improvements in the CONQUAS scores attained The strength of this book therefore represents a true account and reflections of real life practices and experiences in the construction

industry for contractors quality managers and policy makers to learn from Although the context of this book relates to the Singapore experience the lessons and recommendations are equally relevant and applicable to the global construction industry in both the developing and developed countries whose stakeholders in both the public and private sectors wish to understand how CONQUAS works and how the CSFs identified can likewise be implemented for strategic Project Quality Management to building best practices The book is therefore of interests to researchers academia and practitioners in the construction industry as well as in other sectors of the economy in Singapore and other countries where learning points may be used for enhancing project quality management for buildings
