Business Studies September 2014 Memorandum

Business Studies September 2014 Memorandum:

Conflict & Prosperity Menachem Blondheim, Andreas Stergio, Kıvanç Ulusoy, 2017-08-07 The eastern part of the Mediterranean is witnessing some of the most intriguing and dangerous events in today's world. It features weak or collapsed states, direct and proxy wars, and a confluence of great power stakes. In recent years, a new and significant element has been added to the region's troubled search for equilibrium: the discovery of substantial treasures of offshore energy. These energy discoveries are widely recognized as a game changer. This volume investigates the extent of this change and the range of its implications. The Eastern Mediterranean has historically been a meeting point of east and west, of the economic north and south, and of three major world religions: Christianity, Islam, and Judaism. However, this volume proposes to view the Eastern Mediterranean as a separate new region and not as a mere extension of neighboring continents or even of the Middle East. This analytical frame stands at the center of the book. Emerging Dynamics of Sustainability in Multinational Enterprises

John R. McIntyre, Silvester Ivanaj, Vera Ivanaj, Rabi N. Kar, 2016-02-26 Economic development that meets the needs of the global population without jeopardizing the capacity of future generations is a worldwide challenge for multinational enterprises (MNEs). They are expected to balance their role as global economic actors and environmental stewards in the environment in which they operate. Contributors from India, Europe, and the United States offer new perspectives contrasting US, European, and emerging economies' approaches to sustainability and how they can generate roadmaps which yield innovative solutions for one of the most contentious issues of our era. Their review suggests that the differential performance across developed and emerging economies has exposed potential weaknesses. *Emerging Dynamics of Sustainability in Multinational Enterprises* promotes greater emphasis on experimenting with unique local and sustainable approaches to solving problems faced by firms in or from emerging economies. This is a critical resource for researchers, practitioners, and policy makers concerned with sustainable development issues and a fresh reference for graduate-level students and academics focusing on corporate governance, sustainable development, and ethics, as well as multinational enterprise management. **TERI Energy and Environment Data Diary and Yearbook (TEDDY) 2014/15**

The Change Maker's Playbook Amy J. Radin, 2018-09-18 How any leader can deliver business changing innovation now Any leader in any size company no matter the size or sector feels the pressure to innovate find new ideas and business models and create enduring customer value There is no one formula or set process to find and execute the ideas that achieve these goals customers set moving targets shareholders are unforgiving and demanding and society expects companies to care about much more than the bottom line The fast and furious forces of change stimulated by technology demographics lifestyles and economic environmental political and regulatory impacts or any number of these in combination are easy to see They are easy to talk about They are easy to intellectualize The problem The answers are hard to execute and require nuanced combinations of leadership skills strategy and tactics On top of that innovation has moved from an abstraction that will matter at some distant date to a front and center deliverable that must show evidence of impact in the space of the calendar quarter In the stories tools techniques and advice inside *The Change Maker's Playbook* leaders will find tangible steps to find and safeguard the plans that will deliver the sustainable business changing impacts new customers new relationships new sources of value and growth their businesses need Separated from the pack of academic and consultant innovation theories Radin's approach stems from her own experience sitting in the innovation hot seat at some of the world's most demanding companies and is bolstered by interviews with 50 corporate executives founders and startup investors representing media e-commerce payments healthcare government professional services and not for profit sectors The book walks readers through Radin's adaptive 9 part framework engaging them in ready to apply techniques Her work shows leaders how to find the big ideas that will meaningfully address customer needs take the insight from idea through implementation in a way that delivers in the short and long term for the organization and lead effectively through the obstacles that tend to derail or diminish innovation Three phases Seeking Seeding and Scaling organize the framework within an intuitive logical and useable format with concrete actions outlined every step of the way The answer to the dilemma every business faces today is that innovation is exhilarating rewarding and even fun when it is approached as a unique challenge but it can also be polarizing unpredictable and scary Success requires that leaders rethink how they lead innovation Leaders know they must set aside preconceived notions of what works and look to those who have already walked in their shoes This is why *The Change Maker's Playbook* was written and why it will become an ongoing resource for any innovation leader
