## Step by step

This is your comprehensive guide to installing the Nest Cams.

Don't have time to read through the steps? Go to the [Additional Resources](#) section to watch the installation videos for each Nest Cam.

### CONNECT CAMERA TO THE APP AND WI-FI

**Important:** Confirm with the customer that the live feed is coming through crystal clear from Nest Cams chosen location. Walk it up the ladder or hold it in place and have the customer check the feed on their device. If signal strength is weak, look for another acceptable location or take the opportunity to talk to the customer about the benefits of full home mesh-wifi coverage provided by **Google Wifi**.

#### Step 1: Start with the Nest app

Confirm the phone or tablet is connected to the same Wi-Fi network as the camera.

If customer is new to Nest:

- Download the app from the [Apple App Store](#) or [Google Play](#).
- Open the app and create an account.
- Tap Add New → on the Nest app home screen.

If customer already owns a Nest product:

- Tap Settings ⚙️ in the top right corner of the app home screen.
- Select Add product ➕.

#### Step 2: Scan the QR code and pick location name

The app will ask you to scan the camera's QR code with the phone. You can also simply tap Continue without scanning and enter the camera's serial number and entry key instead. These numbers are next to the QR code.

The app will then ask you to pick a location name from a list, or type in your own by selecting Custom at the bottom.

**Important:** Have the customer write down the serial number and entry key, and save this information with their important documents or use an online storage service like Google Drive. Having these numbers on-hand will be a big help when troubleshooting.
