White Sand Black Beach Bush, Gregory W, 2016-07-20 Florida Historical Society Harry T and Harriette V Moore Award Florida Book Awards Silver Medal for Florida Nonfiction In May 1945 activists staged a wade in at a whites only beach in Miami protesting the Jim Crow era laws that denied blacks access to recreational waterfront areas Pressured by protestors in this first postwar civil rights demonstration the Dade County Commission ultimately designated the difficult to access Virginia Key as a beach for African Americans The beach became vitally important to the community offering a place to congregate with family and friends and to enjoy the natural wonders of the area It was also a tangible victory in the continuing struggle for civil rights in public space As Florida beaches were later desegregated many viewed Virginia Key as symbolic of an oppressive past and ceased to patronize it At the same time white leaders responded to desegregation by decreasing attention to and funding for public spaces in general The beach was largely ignored and eventually shut down In *White Sand Black Beach* historian and longtime Miami activist Gregory Bush recounts this unique story and the current state of the public waterfront in Miami Recently environmentalists community leaders and civil rights activists have come together to revitalize the beach and Bush highlights the potential to stimulate civic engagement in public planning processes While local governments defer to booster and lobbying interests pushing for destination casinos and boat shows Bush calls for a land ethic that connects people to the local environment He seeks to shift the local political divisions beyond established interest groups and neoliberalism to a broader vision that simplifies human needs and reconnects people to fundamental values such as health A place of fellowship relaxation and interaction with nature this beach Bush argues offers a common ground of hope for a better future
