**Producing Christian Culture** Giles E. M. Gasper, Francis Watson, Matthew R. Crawford, 2017-06-26 Producing Christian Culture takes as its thread the interpretative genres within which medieval people engaged with the Bible Contributors to the volume present specific material as a case study illustrative of a specific genre whether devotional homiletical scholarly or controversial The chronological range moves from St Augustine to the use of gospel texts in polemical writing of the first two decades of the 1500s with focal sections on early medieval Anglo Saxon and Carolingian theology the scholastic turn of the High Middle Ages and the influence of vernacular writing in the later Middle Ages The tremendous range and vitality of medieval responses to biblical texts are highlighted within the studies [Augustine's City of God](#) Gerard O'Daly, 2020-10-22 The most influential of Augustine's works City of God played a decisive role in the formation of the Christian West Augustine wrote City of God in the aftermath of the Gothic sack of Rome in AD 410 at a time of rapid Christianization across the Roman Empire Gerard O Daly's book remains the most comprehensive modern guide in any language to this seminal work of European literature In this new and extensively revised edition O Daly takes into account the abundant scholarship on Augustine in the twenty years since its first publication while retaining the book's focus on Augustine as a writer in the Latin tradition He explores the many themes of City of God which include cosmology political thought anti pagan polemic Christian apologetic theory of history and biblical interpretation This guide therefore is about a single literary masterpiece yet at the same time it surveys Augustine's developing views through the whole range of his thought As well as a running commentary on each part of the work O Daly provides chapters on the themes of the work a bibliographical guide to research on its reception translations of any Greek and Latin texts discussed and detailed suggestions for further reading **T&T Clark**

**Handbook of Political Theology** Rubén Rosario Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars [Augustine's Teaching on the Two Cities \(Civitates\) and Nigerian Society](#)

Leonard Oshiokhamele Anetekhai, 2020-09-28 Augustine's creative and allegorical thought in his City of God on social life is one that provides citizens of the earthly cities especially Christians an opportunity to understand why and how they should contribute positively to public life through faith and social responsibility Believing that human life is social our human social existence must transcend and go beyond social religious and political affiliations This requires that individuals be good and upright in their social engagements as religious and political citizens It also entails individual rights duties and obligations without excluding the fight against injustice social vice exploitation and power abuse within human society These sets of

values and the positive outcome thereof can only be achieved through love This love is the driving force to social peace a love which must promote order and justice within societal life Irrespective of its heavenly orientation these teachings are significantly context bound like every theological and philosophical endeavour that concerns and connects the human person to its earthly realities Contextualising these concepts within human existence flows from a social religious and political assessment It tends primarily towards moral benefits and social norms that must not lose sight of the spiritual reality which enlightens and build good moral conscience that impacts virtues and values in society [Augustine's City of God](#) James Wetzel,2012

*Augustine and Time* John Doody,Sean Hannan,Kim Paffenroth,2021-05-25 This collection examines the topic of time in the life and works of Augustine of Hippo Adopting a global perspective on time as a philosophical and theological problem the volume includes reflections on the meaning of history the mortality of human bodies and the relationship between temporal experience and linguistic expression As Augustine himself once observed time is both familiar and surprisingly strange Everyone s days are structured by temporal rhythms and routines from watching the clock to whiling away the hours at work Few of us however take the time to sit down and figure out whether time is real or not or how it is we are able to hold our past present and future thoughts together in a straight line so that we can recite a prayer or sing a song Divided into five sections the essays collected here highlight the ongoing relevance of Augustine s work even in settings quite distinct from his own era and context The first three sections organized around the themes of interpretation language and gendered embodiment engage directly with Augustine s own writings from the *Confessions* to the *City of God* and beyond The final two sections meanwhile explore the afterlife of the Augustinian approach in conversation with medieval Islamic and Christian thinkers like Avicenna and Aquinas as well as a broad range of Buddhist figures like Dharmakirti and Vasubandhu What binds all of these diverse chapters together is the underlying sense that regardless of the century or the tradition in which we find ourselves there is something about the puzzle of temporality that refuses to go away Time as Augustine knew demands our attention This was true for him in late ancient North Africa It was also true for Buddhist thinkers in South and East Asia And it remains just as true for humankind in the twenty first century as people around the globe continue to grapple with the reality of time and the challenges of living in a world that always seems to be to be speeding up rather than slowing down

Augustine s *City of God* has profoundly influenced the course of Western political philosophy but there are few guides to its labyrinthine argumentation that hold together the delicate interplay of religion and philosophy in Augustine s thought The essays in this volume offer a rich examination of those themes using the central contested distinction between a heavenly city on earthly pilgrimage and an earthly city bound for perdition to elaborate

aspects of Augustine's political and moral vision. Topics discussed include Augustine's notion of the secular, his critique of pagan virtue, his departure from classical eudaimonism, his mythology of sin, his dystopian politics, his surprising attention to female bodies, his moral psychology, his valorisation of love, his critique of empire and his conception of a Christian philosophy. Together the essays advance our understanding of Augustine's most influential work and provide a rich overview of Augustinian political theology and its philosophical implications.
