military launched a campaign of violence against the Rohingya minority that UN experts later said amounted to a genocide  
More than seven hundred thousand civilians fled to Bangladesh in what became the most concentrated flight of refugees  
since the Rwanda genocide of 1994 The warning signs of impending catastrophe that had built over years were downplayed  
by Western backers of the political transition and only when the exodus began did the world finally come to acknowledge a  
catastrophe that had been long in the making In this updated edition of the book that foreshadowed a genocide Francis Wade  
explores how the manipulation of identities by an anxious ruling elite laid the foundations for mass violence It asks who gets  
to define a nation How can democratic rights be weaponised against a minority And why at a time when the majority of  
citizens in Myanmar had begun to experience freedoms unseen for half a century did much lauded civilian leaders like Aung  
San Suu Kyi become complicit in the most heinous of crimes    **The Nebraska Educational Journal**,1937    Handbook
