## 2015 Rotating Days Off Calendar:

**Astronomical Almanac for the Year 2015 and Its Companion, The Astronomical Almanac Online** Government Publications Office, 2014-03-21 Prepared jointly with Her Majesty's Nautical Almanac Office United Kingdom Hydrographic Office Designed in consultation with other astronomers of many countries Provides current accurate astronomical data for use in the making and reduction of observations and for general purposes The Astronomical Almanac Online extends the printed version by providing data best presented in machine readable form Online data are provided for several years Contains data for astronomy space sciences geodesy surveying navigation and other applications Also used for navigation by air and water [Asteroid Answers to Ancient Calendar Mysteries](#) Herbert B. Stollorz, 2008-07-03 Ancient calendars found around the world are designed to end one point in time They communicate an urgent warning to everyone alive today Complex bronze and gold clocks with multiple dials are found in museums around the world Why they have such advanced intricacy has stumped scientists for hundreds of years This book reveals why the ancients built so many pyramids observatories as well as those complex gold and bronze clocks with more than one dial It surprised me greatly to discover that their various complex designs in one way or another converge on 21 December 2012 It amazes me that ancient cultures separated by thousands of miles of geography and thousands of years in chronology agree so precisely in the cyclical nature of time history and prophecy which is history written in advance The most famous example is the Mayan Aztec calendar which ends its 25 626 year cycle on that momentous date Some researchers have also found 21 December 2012 in what is called the Bible Code Using very different research methods I discovered it in the Bible's book of Revelation and Daniel's prophecies It is one of the most important dates in the plan of God for all humanity *Federal Register*, 2012-05 **The Astronomical Almanac for the Year ...**, 2015 *Internal Revenue Bulletin* United States. **Assessing the adoption of high-iron bean varieties and their impact on iron intakes and other livelihood outcomes in Rwanda: Main survey report** Asare-Marfo, Dorene, Herrington, Caitlin, Birachi, Eliud, Birol, Ekin, Cook, Kristy, Diressie, Michael Tedla, Dusenge, Leonidas, Funes, José, Katsvairo, Lister, Katungi, Enid, Labarta, Ricardo, LaRochelle, Catherine, Lividini, Keith, Moursi, Mourad, Mulambu, Joseph, Murekezi, Abdoul, Musoni, Augustine, Nkundimana, Jean d'Amour, Vaiknoras, Kate, Zeller, Manfred, 2017-02-10 An impact assessment IA study was conducted in Season B 2015/2 to establish the reach of high iron bean HIB varieties to Rwandan bean farmers since these varieties were released in 2010 and to understand the adoption and diffusion patterns that have occurred so far The IA was carried out in two parts The first part was a listing survey which was conducted at the beginning of Season B 2015 during the planting period A total of 19 575 households were enlisted in 120 randomly selected villages throughout the country and 93 percent of those households were bean producing households The listing exercise revealed that 28 percent of bean farmers had grown at least one HIB variety in at least one season since 2010 the equivalent of approximately half a million households In Season B 2015 20 percent of

bean farmers were reported to be growing an HIB the equivalent of approximately 350 000 households Detailed results of the listing exercise are available in a separate report<sup>3</sup> The second part of the study was a more detailed household survey which was conducted among a subsample of nearly 1 400 bean farming households immediately after harvest had taken place Both the listing and main household survey are nationally representative of rural bean producing households in Rwanda This report presents key descriptive results from the main survey and sheds light on issues that may be investigated further in forthcoming publications Key takeaways from the report are summarized below

**Land, People and Power in Early Medieval Wales** Rhianon Comeau, 2020 This study examines the structure of the early medieval Welsh landscape Using a cantref hundred in south west Wales as a case study it draws on a multidisciplinary comparative analysis to overcome the limits imposed by restricted material culture survival and limited written sources It examines the patterns of power and habitual activity that defined spaces and structured lives and considers the temporal relationships both seasonal and longue dur e that shaped them Four key findings are presented Firstly that key areas of early medieval life agriculture tribute payment legal processes and hunting were structured by a longstanding seasonal patterning that is preserved in twelfth and thirteenth century Welsh law church and well dedications and fair dates Secondly it presents at cantref level the first systematic survey of assembly site evidence in Wales and sets it in comparative context Thirdly it demonstrates that though poor material culture preservation and limited written records have hitherto restricted identification and characterisation of key locations in the early medieval Welsh landscape a multidisciplinary dataset allows effective identification of focal zones through indicators known from other areas of north west Europe Fourthly the widely used multiple estate model is found to be an inadequate descriptor of the early medieval Welsh landscape An alternative approach is proposed Methodologically it demonstrates the value of a multidisciplinary approach especially the systematic use of place names which is novel in a Welsh context It also provides key resources for other researchers by geolocating pre 1700 place names from a previously published survey creating GIS resources polygons and geolocated databases from the 1840s tithe map and schedules for parishes in its detailed case study areas and providing a geolocated database of 16th century demesne and Welsh law landholdings in the cantref
