

Autobiography

My name is Michael Smith and I was born on the 30th of August, 1967 in Long Beach, California. My parents were Eddie Smith and Joan Smith. Both of my parents are deceased. My mom died at the age of 57 in 1994 from lung cancer which was the result of smoking her whole lifetime. My father died at the age of 69 in 2006 from a massive heart attack, which was also the likely result from a lifetime of smoking. Fortunately I have been smart enough to avoid that bad habit.

My early childhood was a typical middle class environment circa the 1960's. My dad worked for Simpson Buick as a parts salesman and my mom was a stay at home mother. I had a happy, normal childhood as an only child, leaving me somewhat spoiled. My mom and dad divorced when I was eight years old and both remarried within a year or so of the divorce. My dad remained married to my stepmom Bev until his death. My mom would marry two more times. My first stepdad Vince became a big part of my life and I maintained close contact with him until his death in 2006, two days after my real dad died. Yes, that was a very bad week, losing both of my dads.

Growing up with split parents was not especially difficult since each of my parents kept me out of their divorce and they got along fine at events where both of them were present. I lived with my mom until I was 16 and in high school. By my sophomore year in high school I had begun to hang around with friends that got me into a lot of trouble with a number of things including smoking pot and drinking. I was rapidly heading down a negative path, but was fortunate enough to notice it before I had done any serious damage. I moved in with my dad and changed high schools and friends.

Teaching Writing Gail E. Tompkins, 1990 Book From mid 1970 to early 1974 The Who undertook an amazing and peculiar journey in which they struggled to follow up Tommy with a yet bigger and better rock opera One of those projects Lifehouse was never completed though many of its songs formed the bulk of the classic 1971 album Who's Next The other Quadrophenia was as down to earth as the multimedia Lifehouse was futuristic issued as a double album in 1973 it eventually became esteemed as one of The Who's finest achievements despite initial unfavorable comparisons to Tommy Along the way the group's visionary songwriter Pete Townshend battled conflicts within the band and their management as well as struggling against the limits of the era's technology as a pioneering synthesizer user and a conceptualist trying to combine rock with film and theatre The results included some of rock's most ambitious failures and some of its most spectacular triumphs In *Won't Get Fooled Again* noted rock writer and historian Richie Unterberger documents this intriguing period in detail drawing on many new interviews obscure rare archive sources and recordings and a vast knowledge of the music of the times The result is a comprehensive articulate history that sheds new light on the band's

innovations and Pete Townshend's massive ambitions some of which still seem ahead of their time in the early 21st century

How to Align Literacy Instruction, Assessment, and Standards Nancy L. Akhavan, 2004 In this book Nancy Akhavan details the stories and strategies that enabled her school to move from underperforming status to one in which students achieve and teachers have a whole new understanding of targeted instruction, sensitive assessment, and meaningful curriculum. There is much to appreciate in what she says from her attention to thinking small and understanding the power of the details, her emphasis on planning and goal setting to the seriousness with which she takes the standards and incorporates them into the life of the classroom. Drawing on the work of the best in the business, Lucy Calkins, David and Yvonne Freeman, and Tony Alvarado, Akhavan made professional development the heartbeat of her school as she helped her faculty understand that their work begins and ends with continuous assessment of their students. Now she helps readers of her book learn how child-centered assessment leads to strategic instruction, how to best support multilingual learners, how to organize for yearlong learning, how to think through precise workshop instruction in minilessons, how to develop meaningful curriculum around units of study, how to create a vibrant school community where standards and accountability stem from regular assessment and examination of instructional practices. Akhavan provides immediately useful information for any elementary teacher, principal, or curriculum developer. Read her book and understand how to use standards as a way to connect meaningful instruction to students, not as a bar that students have to reach or a barrier to real teaching and learning.
