Standard Specification for Precast Concrete Septic Tanks¹

This standard is issued under the Standard Specification C1207. Its contents necessarily reflect the consensus of those responsible for its development. It is issued under the authority of the American Concrete Institute. It is subject to revision at any time by the Institute in response to comments received. Its use is limited to the specific conditions and purposes for which it was developed. It is not to be used in isolation from the Standard Specification for Precast Concrete Septic Tanks.

1. Scope

1.1 This specification covers design requirements, manufacturing practices, and performance requirements for installation of precast concrete septic tanks.

1.2 The values stated in inch-pound units are to be regarded as standard. The values given in parentheses are mathematical equivalents in SI units that are provided for information only and are not considered standard.

1.3 This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety, health, and environmental practices and determine the applicability of regulatory limitations prior to use.

1.4 This international standard was developed in accordance with internationally recognized principles on standardization established in the Declaration of Principles for the Development of International Standards, Guides and Recommendations issued by the World Trade Organization Agreement on Trade-Related Intellectual Property Rights (TRIPS).
