

N.A. 12 STEPS

1. We admitted that we were powerless over our addiction, that our lives had become unmanageable.
2. We came to believe that a Power greater than ourselves could restore us to sanity.
3. We made a decision to turn our will and our lives over to the care of God as we understood Him.
4. We made a searching and fearless moral inventory of ourselves.
5. We admitted to God, to ourselves, and to another human being the exact nature of our wrongs.
6. We were entirely ready to have God remove all these defects of character.
7. We humbly asked Him to remove our shortcomings.
8. We made a list of all persons we had harmed, and became willing to make amends to them all.
9. We made direct amends to such people wherever possible, except when to do so would injure them or others.
10. We continued to take personal inventory and when we were wrong promptly admitted it.
11. We sought through prayer and meditation to improve our conscious contact with God as we understood Him, praying only for knowledge of His will for us and the power to carry that out.
12. Having had a spiritual awakening as a result of these steps, we tried to carry this message to addicts, and to practice these principles in all our affairs.

Psychodynamic Approaches for Treatment of Drug Abuse and Addiction David Potik, 2020-11-29 This book provides clinicians and students with insights on the use of psychodynamic therapy to treat drug abuse and addiction combining theory with clinical case material. The perspectives of analysts such as Abraham Rado Zimmel Tibout Wurmser Khanzian Krystal and McDougall are reviewed alongside original and more recent conceptualizations of drug addiction and recovery based on Kleinian Winnicottian and Kohutian ideas. The case material deals with clinical phenomena that characterize working with this complex population such as intense projective identification countertransference difficulties and relapses. The theoretical analysis covers a range of concepts such as John Steiner's psychic shelters and Betty Joseph's near death addiction which are yet to be fully explored in the context of addiction.
