with emphasis on Buber's and Rosenzweig's reinterpretation of the call of Moses Saint John and Russian philosophies of language Florensky to Bakhtin Vocation emerges as bound up with the possibility of being name bearers enabling a mutuality of call and response This is then evidenced further in ethics and poetics where Levinas and Hermann Broch The Death of Virgil become major points of reference In conclusion the themes of calling and the name are seen to shape the possibility of love the subject of the final part of the philosophy of Christian life A Metaphysics of Love
