The Idea of God B.Z. Cooper, 2012-12-06 Thinking about God is historical thinking and that in two senses the idea of God has a history and those who think about God think through an historically formed mind The task of the theologian is not the attempt to move outside his historicity such an attempt constitutes a fallacy and not a virtue but to accept its implications and limitations Methodologically this means that the theologian must point to the historical perspectives that underlie the idea of God in its development and in his own constructive thought must work self consciously with an historical perspective informed by the psychological and cosmological understanding of his own time This book centers on that idea which traditionally has been associated with the very godness of God the idea of divine abso luteness and puts certain historical logical religious and finally cosmological questions to it The roots of that idea lie in Greek thought which entered Christian theology via the early church is much indication particularly in Patristic fathers even so there trinitarian thought that the Biblical heritage is pushing theological thlnking towards a social or relative concept of divine being ch 1

The Right of Sovereignty Daniel Lee, 2021 This book examines the origins of the principle of sovereignty in the legal and political thought of its most influential theorist Jean Bodin It explores Bodin s creative synthesis of classical sources in philosophy history and the medieval legal science of Roman and canon law in crafting the rules governing state centric politics
