## Specifying the Default JavaScript Editor

You can choose to either use the built-in JavaScript editor that comes with Acrobat, or an external JavaScript editor of your choice. To set the default JavaScript editor that you want to use:

1.  Choose **Edit > Preferences** to open the **Preferences** dialog box.

2.  Select **JavaScript** from the list of options on the left side of the dialog box.
    This brings up the **Preferences** dialog shown in Figure 2.3.

3.  In the **JavaScript Editor** section, select the editor you want to use.

**FIGURE 2.3**      *Selecting the Editor in Preferences*

The **Acrobat JavaScript Editor** option sets the built-in Acrobat JavaScript editor as the default.

The **External JavaScript Editor** option sets an external editor as the default. If you wish to use and external editor, type or paste the path to the editor in the text box, or click **Browse...** to navigate to your prefered JavaScript editor application.

**NOTE:** When you specify some external editors by browsing, Acrobat adds command options to the editor command. For details, see "Additional Editor Capabilities" on page 24.
