Circulatory System

In our bodies, a highway flows,
With red and blue, it whirls and goes.
The heart beats strong, a drum that plays,
Pumping blood in wondrous ways.

Arteries wide, veins narrow and shy,
Transporting oxygen, oh so high!
Nutrients travel, waste goes away,
Keeping us healthy, day by day.

With each heartbeat, our life does sing,
The circulatory system, a vital thing!

More Voices from the Classroom Brian Hand,Lori Norton-Meier,Jeong-yoon Jang,2017-08-24 The intent of this book is to provide a rich and broad view of the impact of argument based inquiry in classrooms from the perspective of the teacher There are two important reasons for such a book The first is that we as researchers constantly work to present our views of these experiences with the voice of the teachers only being relayed through the perspective of the researcher We need as a community to listen to what the teachers are telling us The second reason is that as demands grow to provide opportunities for students to pose questions make claims and provide evidence that is to think critically and reason like scientists we need to understand what this looks like from the perspective of the teacher This book brings together a range of teachers from several countries who have used the Science Writing Heuristic SWH approach to teach argument based inquiry These teachers have all gone through professional development programs and successfully implemented the approach at a high level
