Simple and Simplified Languages Andras Kornai, Sigal Uziel-Karl, Scott A. Hale, 2022-05-26 *Plant Adaptations to Phosphate Deficiency* Alex Joseph Valentine, Alejandra Zúñiga-Feest, Aleysia Kleinert, Pablo Cornejo, Vagner A. Benedito, 2021-05-18 Phosphate is an essential mineral to all plants and its availability in soils is an increasing challenge for agriculture. Phosphate is abundant in soils but its biological availability is often low due to the complexes that it forms with soil minerals and compounds. The biological availability of Phosphate is further reduced in acidic soils which represent approximately 40% of earth's arable agricultural lands. Agricultural systems compensate Phosphate deficiency with fertilizers coming from the mining of rock phosphate which is estimated to exhaust within the next 50 years. For these reasons Phosphate limitations in natural and agricultural ecosystems is going to become a global problem and we urgently need to better understand how plants respond to Phosphate deficiency. **Eurasia 2.0** Mark Bassin, Mikhail Suslov, 2016-03-17 This book discusses the return of geopolitical ideas and doctrines to the post Soviet space with special focus on the new phenomenon of digital geopolitics which is an overarching term for different political practices including dissemination of geopolitical ideas online using the internet by political figures and diplomats for legitimization and outreach activity and viral spread of geopolitical memes. Different chapters explore the new possibilities and threats associated with this digitalization of geopolitical knowledge and practice. Our authors consider new spatial sensibilities and new identities of global as well as local. Selves the emergence of which is facilitated by the internet. They explore recent reconfigurations of the traditional imperial conundrum of center versus periphery. Developing Manuel Castells argument that social activism in the digital era is organized around cultural values the essays discuss new geopolitical ideologies which aim to reinforce Russia's spiritual sovereignty as a unique civilization while at the same time seeking to rebrand Russia as a greater soft power by utilizing the Russian speaking diaspora or employing traditionalist rhetoric. Great Power imagery, enemy making and visual mappings of Russia's future territorial expansion are traditional means for the manipulation of imperial pleasures and geopolitical fears. In the age of new media however this is being done with greater subtlety by mobilizing the grassroots, contracting private information channels and de politicizing geopolitics. Given the political events of recent years it is logical that the Ukrainian crisis should provide the thematic backdrop for most of the authors. **Exploring Informal Learning Space in the University** Graham Walton, Graham Matthews, 2017-09-01 Growing student numbers increased student expectations, new approaches to learning and fast paced technological advances all contribute to the need for universities to take a more strategic approach to their buildings including formal and informal learning spaces. Exploring Informal Learning Space in the University addresses the issue of informal learning space from the perspectives of a comprehensive range of stakeholders including students, academics, facilities managers, university managers, IT managers, architects, interior designers and librarians. With contributions from a range of experts, practitioners and academics around the world this book uses a

combination of case studies and theoretical discussion to explore the rationale and theory of informal learning space alongside the practicalities of its planning development and utilization The volume is at once ambitious and pragmatic combining innovative thinking with a firm awareness of practicalities including the varied constraints faced by universities and the need to work in tandem with broader strategies Advocating broad collaboration at both planning and delivery stage the result is essential reading for anyone involved in the delivery of learning space provision from architects and designers to university managers and strategists It will also be of particular interest to academics researchers and postgraduate students engaged in the study of library information science or higher education policy and strategy **The life of Saint John the Almsgiver** Trinity College (University of Cambridge).,1980 *The Life of Saint John the Almsgiver* Kenneth Urwin,1981
