Apparitions Episode Guide:

An Analytical Guide to Television's One Step Beyond, 1959-1961 John Kenneth Muir, 2010-06-21 Alcoa Presents One Step Beyond made its television debut in 1959 nine months before Rod Serling's classic *The Twilight Zone* and paved the way for a generation of television programs devoted to paranormal topics such as the occult ESP and ghost stories. *One Step Beyond* was also where some of Hollywood's most famous leading men including Warren Beatty, William Shatner and Charles Bronson got their starts in television. This complete reference work to the 96 half hour episodes that ran for three seasons on ABC also offers a detailed history, extensive commentary and summaries of the critical reception of *One Step Beyond* as well as coverage of the sequel series produced in 1978 entitled *The Next Step Beyond*. Complete credits for both series are provided.

Apparitions of the Self Janet Gyatso, 2020-11-10 *Apparitions of the Self* is a groundbreaking investigation into what is known in Tibet as secret autobiography, an exceptional rarely studied literary genre that presents a personal exploration of intimate religious experiences. In this volume Janet Gyatso translates and studies the outstanding pair of secret autobiographies by the famed Tibetan Buddhist visionary Jigme Lingpa (1730-1798) whose poetic and self-conscious writings are as much about the nature of his own identity, memory and the undecidabilities of autobiographical truth as they are narrations of the actual content of his experiences. Their translation in this book marks the first time that works of this sort have been translated in a Western language. Gyatso is among the first to consider Tibetan literature from a comparative perspective, examining the surprising fit as well as the misfit of Western literary theory with Tibetan autobiography. She examines the intriguing questions of why Tibetan Buddhists produced so many autobiographies far more than other Asian Buddhists and how autobiographical self assertion is possible even while Buddhists believe that the self is ultimately an illusion. Also explored are Jigme Lingpa's historical milieu, his revelatory visions of the ancient Tibetan dynasty and his meditative practices of personal cultivation. The book concludes with a study of the subversive female figure of the Dakini in Jigme Lingpa's writings and the implications of her gender, her sexuality and her unsettling discourse for the autobiographical subject in Tibet.

Apparition of Splendor Elizabeth Gregory, 2021-08-13 While the later work of the great Modernist poet Marianne Moore was hugely popular during her final two decades since her death, critics have condemned it as trivial. This book challenges that assessment with fresh readings of many of the late poems and of the iconic cross-dressing public persona Moore developed to deliver them. *Apparition of Splendor* demonstrates that Moore used her late life celebrity in daring and innovative ways to activate egalitarian principles that had long animated her poetry. Dressed as George Washington in cape and tricorn and writing about accessible topics like sports, TV shows, holidays, love, activism, mortality and celebrity itself, she reached a wide cross section of Americans encouraging them to consider what democracy means in their daily lives, particularly around issues of gender, sexuality, racial integration, class, age and immigration. Moore actively sought out publication in popular venues like *Vogue*, *The New Yorker* and *the Saturday Evening Post*, etc. and wrote

of Modern Spiritualism scholars have largely focused on its Anglo American French and German developments often overlooking the Italian context Modern Spiritualism in Italian Literature and Culture 1765 1969 challenges this perspective by examining the Italian case as a space of intersection between transnational currents of thought and deeply rooted cultural traditions From the Enlightenment to the occult revival of the 1960s Modern Spiritualism in Italy engaged with scientific discourse philosophical speculation literary imagination and Catholic doctrine producing a hybrid intellectual landscape that remains largely understudied This volume traces the circulation and transformation of spiritualist ideas across different media and disciplines analysing their impact on literature psychology and science By situating Italy within the broader European and transatlantic networks of occult knowledge Modern Spiritualism in Italian Literature and Culture provides a new vantage point from which to rethink the historical evolution of modernity belief and the supernatural **The**
