Counter-Terrorist Financing Law and Policy Burke Uğur Başaranel, Umut Türkşen, 2019-04-09 Since the 9/11 attacks the world has witnessed the creation of both domestic and international legal instruments designed to disrupt and interdict the financial activities of terrorists This book analyses the counter terrorist financing law CTF policy and practice at the national level focusing on Turkey The work examines the limits and capabilities of CTF efforts on terrorism threats and determines the effectiveness of CTF efforts in Turkey a country which has a pivotal role in terms of countering terrorism regionally and internationally The Turkish case study is supported by an empirical study involving 37 semi structured interviews with CTF practitioners and law enforcement experts with different affiliations and backgrounds The findings illustrate that Turkey's CTF system has not obtained an adequate level of effectiveness as a result of lack of proper implementation of its policy in the bureaucratic legal and operational spheres It is evident that the administrative and legal systems in Turkey are established according to the one size fits all international CTF standards and thus are compliant with the international CTF benchmarks yet the interviews reveal significant challenges at the implementation level including lack of training and financial security heavy handed bureaucracy inadequate coordination and communication between international and national levels The book will be an invaluable resource for academics students and policy makers working in the areas of financial crime and terrorism

Terrorism and Policy Relevance James Fitzgerald, Nadya Ali, Megan Armstrong, 2018-11-08 This book explores the interrelationship between terrorism and policy relevance from a range of critical perspectives In particular it questions the politics of policy relevance that is it interrogates how epistemological and practical pressures to produce policy relevant research shapes prevalent understandings of counter terrorism and vice versa It also reflects on Critical Terrorism Studies CTS relationship to policy relevance Should CTS eschew engagement with policy

relevance and maintain a position outside the orthodoxy or are CTS scholars uniquely positioned to offer meaningful alternatives to contemporary counterterrorism practices Read thus the question of policy relevance is central to CTS identity and represents an essential juncture as to how associated scholarship might develop into the future *Journal of the Senate of the United States of America* United States. Congress. Senate,2016 *Iraq in Crisis* Anthony H. Cordesman,Sam Khazai,2014-06-04 Iraq is a nation in crisis bordering on civil war The country now faces growing violence a steady rise in Sunni Islamist extremism an increasingly authoritarian leader that favors Iraq s Sunnis and growing ethnic tension between Arabs and Kurds The recent Iraqi election offers little promise that it can correct the corruption the weaknesses in its security forces and the critical failures in governance economic development and leadership The problems Iraq faces in 2014 are a legacy of mistakes made during and after the U S led invasion in 2003 but increasingly the nation is dealing with the self inflicted wounds of its leaders who abuse human rights repress opposing factions and misuse the Iraqi police and security forces to their own end **Suicide Warfare** Rosemarie Skaine,2013-01-09 This book provides up to date coverage of the policies strategies and effects of suicide in war examining this subject from societal and military perspectives to shed light on the justifications for using human beings as expendable weapons Suicide warfare has expanded over the years and become a global phenomenon In some parts of the world it has become rooted in the fabric of society Westerners often find it difficult to grasp why someone would be willing to sacrifice their life in order to take the lives of others Suicide Warfare Culture the Military and the Individual as a Weapon provides a thorough examination of the topic that enables readers to understand the justification for suicide warfare and better appreciate how the ideology of the individuals and organizations that resort to suicide warfare greatly complicates security issues in the 21st century The book covers the policies strategies and effects of suicide in war examining suicide warfare in its entirety from a theoretical standpoint and then applying those theories to the actual manifestations of and politico military responses to suicide warfare The author discusses specific organizations such as Al Qaeda and the Chechen rebels analyzing each within its societal context military justification individual motivation and outcomes and addresses principles of sociological and conflict theory to place suicide warfare in a clearer conceptual framework The book presents case studies that allow readers to better understand abstract theories and make distinctions between individual cases of suicide warfare **Terrorism** Yonah Alexander,1990 **Legislative Synopsis and Digest ...
