## 2013 Pat Tourism Memorandum:

### **Nordic Perspectives on the Responsible Development of the Arctic: Pathways to Action** Douglas C.

Nord,2020-10-30 This book investigates the multifaceted nature of change in today's Nordic Arctic and the necessary research and policy development required to address the challenges and opportunities currently faced by this region. It focuses its attention on the recent efforts of the Nordic community to create specialized Centers of Excellence in Arctic Research in order to facilitate this process of scientific inquiry and policy articulation. The volume seeks to describe both the steps that lead to this decision and the manner in which this undertaking has evolved. The work highlights the research efforts of the four Centers and their investigations of a variety of issues including those related to ecosystem and wildlife management, the revitalization of resource-dependent communities, the emergence of new climate-born diseases, and the development of adequate modeling techniques to assist northern communities in their efforts at adaptation and resilience building. Major discoveries and insights arising from these and other efforts are detailed and possible policy implications considered. The book also focuses attention on the challenges of creating and supporting multidisciplinary teams of researchers to investigate such concerns and the methods and means for facilitating their collaboration and the integration of their findings to form new and useful perspectives on the nature of change in the contemporary Arctic. It also provides helpful consideration and examples of how local and indigenous communities can be engaged in the co-production of knowledge regarding the region. The volume discusses how such research findings can be best communicated and shared between scientists, policymakers, and northern residents. It considers the challenges of building common concern not just among different research disciplines but also between bureaucracies and the public. Only when this bridge-building effort is undertaken can true pathways to action be established.

### **Innovation and Creativity in Tourism, Business and Social Sciences**

Vicky Katsoni, Carlos Costa, 2025-06-03 This book is the first volume of the proceedings of the 11th International Conference of the International Association of Cultural and Digital Tourism (IACuDiT). Focusing on Innovation and Creativity in Tourism, Business and Social Sciences, the conference was held from September 3 to 5, 2024, in Naxos, Greece. The book showcases the latest research on tourism business technology and the social sciences and presents a critical academic discourse on ICT adoption in the social sciences, regional development, sustainability, and tourism experience. Smart and sustainable practices, innovations in museum interpretation and collections management, emerging and disruptive technologies, gaming, gamification, and augmented reality, and other topical aspects in business and the social sciences. The book discusses these digital transformation processes from various standpoints, including its effect on the social sciences combined with specific forms of tourism. The impact of digitalization encourages the emergence of new digital products and services based on the principle of flexibility. The book focuses on the knowledge economy and the smart destinations concepts and highlights new modes of tourism management and development while further chapters address emerging technologies.
