2013 Poverty Guidelines For Immigration:

Federal Register ,2014 Immigration Law Service ,2000 The Road to Citizenship Sofya Aptekar,2015-03-18

Between 2000 and 2011 eight million immigrants became American citizens In naturalization ceremonies large and small these new Americans pledged an oath of allegiance to the United States gaining the right to vote serve on juries and hold political office access to certain jobs and the legal rights of full citizens In The Road to Citizenship Sofya Aptekar analyzes what the process of becoming a citizen means for these newly minted Americans and what it means for the United States as a whole Examining the evolution of the discursive role of immigrants in American society from potential traitors to morally superior supercitizens Aptekar s in depth research uncovers considerable contradictions with the way naturalization works today Census data reveal that citizenship is distributed in ways that increasingly exacerbate existing class and racial inequalities at the same time that immigrants own understandings of naturalization defy accepted stories we tell about assimilation citizenship and becoming American Aptekar contends that debates about immigration must be broadened beyond the current focus on borders and documentation to include larger questions about the definition of citizenship Aptekar s work brings into sharp relief key questions about the overall system does the current naturalization process accurately reflect our priorities as a nation and reflect the values we wish to instill in new residents and citizens Should barriers to full membership in the American polity be lowered What are the implications of keeping the process the same or changing it Using archival research interviews analysis of census and survey data and participant observation of citizenship ceremonies The Road to Citizenship demonstrates the ways in which naturalization itself reflects the larger operations of social cohesion and democracy in America

Mexicano and Latino Politics and the Quest for Self-Determination Armando Navarro, 2015-01-08 This book examines the current status of Mexicano and Latino politics in the United States Political scientist and community activist Armando Navarro maintains that both represent a dysfunctional and failed mode of politics attributable to their system maintenance and mainstream ideological orientation and approach As colonial agents they protect both a United States that is decaying and declining and the degenerative liberal

capitalist system Navarro argues that the United States is not a representative democracy but in fact is a White Corporatistic Dictatorship controlled by Capital which is evolving into a Fascist State. The book provides an in depth analysis and contention that Mexicanos and Latinos in Aztlán Southwest are an occupied and internal colonized people. It argues they are the Palestinians and Kurds of the United States. His supposition is sustained by the book's profiles of Mexicano political history, demography, socioeconomics, electoral politics, immigration, and the Triad Crisis e.g. Second Great Depression, Global Economic Crisis, and Global Capitalist Crisis. Each chapter provides the justification and case for Navarro's two unique alternative change models applicable to today's bankrupt and failed Mexicano and Latino Politics in the twenty first century. The preferred model is Aztlán's Politics of a Nation Within a Nation (APNWN) which is based on the models of the Mormon Nation of Utah and that of French Quebec. Navarro therefore calls for the reformation of the United States liberal capitalist system by way of social democracy for the empowerment of Mexicanos and Latinos. His second model is Aztlán's Politics of Separatism (APS) which offers two strategic options: 1) Aztlán Southwest becoming a separate and sovereign nation state, or 2) its reannexation and re integration with Mexico. Navarro outlines a plan of action for building a New Movement designed to attain APNWN or APS. In addition, several ominous forecasts are made such as the United States being in a state of decline and no longer a hegemonic superpower due to the rise of a multi polar world. Moreover, Navarro attributes the United States decline to the inherent contradictions of global capitalism. His sobering message is that if the current economic conditions are left unchanged this will produce an End of Times scenario, the unleashing of the Four Horsemen of the Apocalypse.
