Forests L. Katherine Kirkman,Steven B. Jack,2017-09-27 Ecological Restoration and Management of Longleaf Pine Forests is a timely synthesis of the current understanding of the natural dynamics and processes in longleaf pine ecosystems This book beautifully illustrates how incorporation of basic ecosystem knowledge and an understanding of socioeconomic realities shed new light on established paradigms and their application for restoration and management Unique for its holistic ecological focus rather than a more traditional silvicultural approach the book highlights the importance of multi faceted actions that robustly integrate forest and wildlife conservation at landscape scales and merge ecological with socioeconomic objectives for effective conservation of the longleaf pine ecosystem
