Children Jonathyne Briggs,2024-12-03 Perpetual Children is a narrative history of debates over the definition and appropriate treatment of autism in France since 1950 noting the French divergence from psychological norms in the rest of the world Examining the works of psychoanalysts the activities of parents associations and the efforts of autistic self advocates the book argues that the consistent framing of autism as a form of childhood psychosis marginalized autists and emphasized the voices of parents and professionals This framing also justified the continued use of psychoanalysis as an intervention due to the placement of autism within the family dynamic Even as research in the United States pointed to biological and neurological conceptions of autism the French continued to support a psychogenic origin for the disorder impacting state policy and medical norms for decades This position energized conflict between professionals and parents concerning expertise leading to political and legal changes at the end of the twentieth century By the twenty first century French autists entered the debate to transform its parameters and assert their own position as experts on autism reconceiving the disorder outside of childhood to a limited degree Perpetual Children reveals the international dimension of the story of autism and how the French context provides a different perspective on its history **Funerals, Politics, and**

Memory in Modern France 1789-1996 Avner Ben-Amos,2000-10-12 This is an interdisciplinary study of the state funerals that were celebrated in France between the French Revolution and the death of François Mitterrand Its aim is to explain how the funerals of such prominent figures as Voltaire Napoleon Gambetta Hugo and de Gaulle became major public events that helped to mould the national memory Combining the insights of anthropologists and sociologists with a historical analysis it argues that the dual character of the ceremony a political festival and final rite of passage turned the state funeral into a gripping event to which few French people could remain indifferent The book focuses on the republican tradition of state funerals which emerged in the French Revolution and has continued through the Fifth Republic Whether in power or in opposition the republicans used the funerals of their leaders and militants to educate the masses and mobilize public support This book the first comprehensive analysis of French state funerals is also a major contribution to the study of republican culture

The Political, Social, and Literary History of France Ebenezer Cobham Brewer,1878 Class, Ideology, and the Rights of Nobles During the French Revolution Patrice L. R. Higonnet,1981 Historical Philosophy in France and French Belgium and Switzerland Robert Flint,1894 Revolutionary Commerce Paul Cheney,2010-03-16 Combining the intellectual history of the Enlightenment Atlantic history and the history of the French Revolution Paul Cheney explores the political economy of globalization in eighteenth century France The discovery of the New World and the rise of Europe s

Atlantic economy brought unprecedented wealth It also reordered the political balance among European states and threatened age old social hierarchies within them In this charged context the French developed a science of commerce that aimed to benefit from this new wealth while containing its revolutionary effects Montesquieu became a towering authority among reformist economic and political thinkers by developing a politics of fusion intended to reconcile France's aristocratic society and monarchical state with the needs and risks of international commerce The Seven Years War proved the weakness of this model and after this watershed reforms that could guarantee shared prosperity at home and in the colonies remained elusive Once the Revolution broke out in 1789 the contradictions that attended the growth of France's Atlantic economy helped to bring down the constitutional monarchy Drawing upon the writings of philosophes diplomats consuls of commerce and merchants Cheney rewrites the history of political economy in the Enlightenment era and provides a new interpretation of the relationship between capitalism and the French Revolution *Histoire de L'historiographie* ,1989 **The Saturday Review of Politics, Literature, Science and Art** ,1866 **Reform, Revolution and French Global Policy, 1787-1791**

Jeremy J. Whiteman,2017-09-19 The period following the American War of Independence was for the France of Louis XVI the high water mark of its diplomatic prestige With France's arch rival Britain humbled by the loss of her main north American colonies and deprived of any significant continental alliances Louis felt confident that France could at last re assume its natural role as the economic political and military leader of Europe That this did not happen and if anything France's international prestige sunk even lower was a bitter pill for its rulers and one that was to have important ramifications beyond the sphere of foreign policy Indeed continued frustration at France's impotence on the world stage became a pressing domestic issue with radically opposing solutions being put forward to bring about a national regeneration This work focuses on the policy responses of the National Constituent Assembly to the issues of global competition especially in the maritime colonial and economic sphere and with particular reference to Anglo French rivalry These responses are contrasted to the policies of the reforming royal government of the Pre Revolution of 1787 1789 From this analysis of the Old and New Regimes respective global policies it is shown how French responses to the demands of international competition played a role in both fostering and shaping the Revolution of 1789 Moreover Whiteman argues that in spite of profound ideological differences in material terms there was a significant degree of continuity between the policies of the Constituent deputies and the Old Regime royal government *The International Library of Famous Literature* ,1898 **Americanized Encyclopedia Britannica, Revised and Amended** ,1890 *The Publishers' Trade List Annual* ,1969 **The History of England from the Earliest Period to the Present Time** compiled from the Most Authentic Sources David Hume,1868
