filled water we drink daily it's no wonder why people are starting to draw a connection between the two. Of course impure water is better than nothing but you know that there must be a better way. If these are the same concerns you have you're in the right place. The truth is you've been tricked into thinking the only way to quench your thirst is to turn on the tap or buy a bottle of water. It's not your fault but what can you do to stop being taken advantage of? S. J. Hammer can show you exactly what to look for and you'll benefit from his methods especially if you're someone who feels outraged every time you pay your water bill. Wants better softer water for you and your family? Is tired of relying on the city for your water? Is searching for a sustainable strategy to use water for a variety of purposes? The question you need to ask yourself is: Why am I paying for bacteria infested water when rainwater is a free and unlimited natural resource? Yes, collecting rainwater may seem unclean, messy and awkward to store but what if there were a system you could follow to make this process a breeze? It's easier than you think and you don't need to know how to control the weather to start reaping the benefits. In *Rainwater Harvesting for Beginners* here is just a fraction of what you will discover: Groundbreaking insight into rainwater harvesting and all the advantages of building your own sustainable system. A fountain of strategies to purify rainwater so you'll never have to rely on tap or bottled water again. The step by step process to building your own RWH system.
