

AGED CARE FUNDING INSTRUMENT (ACFI) USER GUIDE

CONTENTS:

- I ACFI Introduction - What is it? How does it work?**
- II ACFI CALCULATOR PROCESS - How do I use it?**
- III THE ACFI PROCESS SUBMISSION**

SECTION I - ACFI INTRODUCTION: The Aged Care Funding Instrument is used to assess the degree of care each aged care resident needs and to allocate commensurate government funding to them accordingly. ACFI pays subsidies directly to the Government approved residential aged care facility that is providing the care.

SECTION II - HOW DO I USE THE ACFI CALCULATOR PROCESS: The ACFI consists of 12 questions about assessed care needs, and two diagnostic sections concerned with the diagnosis of illness or other problems.

There are 3 areas of residential care subsidised by the ACFI

- (1) Activities of Daily Living Domain - ADL (Q1-5).**
- (2) Behaviour Domain - BEH(Q6-10).**
- (3) Complex Health Care Domain - CHC(Q11-12).**

The amount payable depends on ratings obtained after comprehensive assessments of the ACFI questions 1-12.

There are 4 Care Levels available with commensurate funding provided for:

Nil, Low, Medium, High

SECTION III - THE ACFI PROCESS SUBMISSION:

STEP 1 : ASSESSMENT - Assessments must be provided for each question and supportive of the checklist.

STEP 2 : CHECKLIST - Checklists in the guide determines how to correctly complete information against each question.

STEP 3 : RATING A-D - Completed checklists determine the rating to use in claiming a subsidy for that question and therefore that domain.

STEP 4 : SUBMISSIONS - You make an ACFI claim by completing the ACFI application for classification form. There are 2 ways you can submit the form to Services Australia: through aged care online claiming or by downloading the form, completing and sending it by post to Services Australia.
