Andrew Gordon,Thomas Rist,2016-04-01 The early modern period inherited a deeply ingrained culture of Christian remembrance that proved a platform for creativity in a remarkable variety of forms From the literature of church ritual to the construction of monuments from portraiture to the arrangement of domestic interiors from the development of textual rites to drama of the contemporary stage the early modern world practiced arts of remembrance at every turn The turmoils of the Reformation and its aftermath transformed the habits of creating through remembrance Ritually observed and radically reinvented remembrance was a focal point of the early modern cultural imagination for an age when beliefs both crossed and divided communities of the faithful The Arts of Remembrance in Early Modern England maps the new terrain of remembrance in the post Reformation period charting its negotiations with the material the textual and the performative

In the Cross of Reality Eugen Rosenstock-Huessy,2017-09-08 This book makes the first volume of Eugen Rosenstock Hueussy s Soziologie available in English for the first time since its 1956 publication in German Rosenstock Hueussy argues that social philosophy has favored abstract and spatially contrived categories of social organization over temporal processes This preference for space thinking has diverted us from recognizing the power of speech and its relationship to living on the front lines of life Taking speech and the social responsibilities and reciprocities that accompany naming as the key to social reality In the Cross of Reality

provides a sociological exploration of play spaces as the basis for reflexivity It also explores the spaces of activity and their correlation in war and peace to the spheres of serious life If we are to survive and flourish different qualities and reciprocal relationships must be cultivated so that we can deal with different fronts of life Arguing that modern intellectuals and their obsession with space have created a dangerously false choice between mechanical and aesthetic salvation Rosenstock Huesy clears a path so that we better appreciate our relationship between past and future in founding and in partitioning time
