

Sample Test Booklet and Answer Document

1. Sample answer documents include an answer key and the instructions for marking the sample test pages as follows:

First, sample questions from English, Mathematics, Reading, and Science/Technology/Innovation tests are selected, being chosen to represent various levels and content knowledge. (Details about what will appear on the actual test are available later.)

The questions (as well as the instructions) and the suggested answers for each question are included in the answer documents. The final answers are numbered to match the questions, and the order in which they are ordered is designed to be representative.

For each question, knowledge areas across all tests, from grade 10 to the senior secondary level, are considered and taken as the question. These include the most difficult and relevant for each subject. Answers include: (1) at the end of the question, there is a list of possible answers (your choice) and (2) at the end of the question, there is a list of possible answers (your choice).

Answers only come in one form: multiple choice. If you change your mind about an answer, simply mark your choice. (You may also change your mind about an answer, but that is not the case.) Mark your choice, in this case, as follows: with the letter number on the question.

Only answers marked on your answer document will be scored. Your answer on each test will be marked (and on the question of your answer) by marking the letter number on the question. This will be marked (and on the question of your answer) by marking the letter number on the question. This will be marked (and on the question of your answer) by marking the letter number on the question.

Students who are not in the ACT system will be marked (and on the question of your answer) by marking the letter number on the question.
