this study Michael J Morris examines aspects of synoptic gospel demonology specifically human responses to demonic evil It
is clear that early Christian demonology can be more fully understood against the background of early Jewish traditions In
the Dead Sea Scrolls for instance there are two fundamental ways by which protection against demons is sought The first
anti demonic method is exorcism and the second is characterized by its preventative nature and is typically referred to as
apotropaism Although many contributions have been made on the topic of exorcism in the gospels less attention has been
paid to the presence of apotropaic features in the gospel texts Therefore Michael J Morris offers a timely examination of
apotropaic tradition in early Judaism and its significance for demonological material in the synoptic gospels *To-day's*
