Forum ,1980    **Teaching General Music** Carlos R. Abril,Brent M. Gault,2016 General music is informed by a variety of teaching approaches and methods These pedagogical frameworks guide teachers in planning and implementing instruction Established approaches to teaching general music must be understood critically examined and possibly re imagined for their potential in school and community music education programs Teaching General Music brings together the top scholars and practitioners in general music education to create a panoramic view of general music pedagogy and to provide critical lenses through which to view these frameworks The collection includes an examination of the most prevalent approaches to teaching general music including Dalcroze Informal Learning Interdisciplinary Kod ly Music Learning Theory Orff Schulwerk Social Constructivism and World Music Pedagogy In addition it provides critical analyses of general music and teaching systems in light of the ways children around the world experience music in their lives Rather than promoting or advocating for any single approach to teaching music this book presents the various approaches in conversation with one another Highlighting the perceived and documented benefits limits challenges and potentials of each Teaching General Music offers myriad lenses through which to re read re think and re practice these approaches    **Songwriter's Review** ,1959-04

Respond Sharon M. Ballenger,1980-06    *Death and Dying in Tupac's Music* Christopher Skrypzak,2023-03-01 Seminar paper from the year 2022 in the subject English Language and Literature Studies Other grade 1 3 Ernst Moritz Arndt University of Greifswald Anglistik Amerikanistik course Death Dying in the United States language English abstract Past analyses of violence in rap music mostly focused on quantitative surveys of certain semantic references or tried to answer the question to which extent listener s musical preferences influence their relationship with violence While approaches of this kind may have its merits in detecting general trends they often miss to address differences in the quality of these references because they largely ignore the context in which they are made thus diminishing their explanatory value for cultural characteristics The objective of this paper is three fold Firstly it aims to reveal the broad spectrum of death depictions in Tupac s music Secondly it intends to create appreciation for the frequent thoughtful depiction he shows as well as to raise sympathy even for seemingly careless expressions of death by trying to explain the subconscious rational behind it This will be especially useful for readers not familiar with rap in its original cultural context Thirdly it will place these depictions in the broader context of American culture thereby revealing a continuity with political social and cultural developments in American society at large and African American culture in particular The argument will be made that rather than being an example of a counter culture that is breaking with society s values Tupac s gangsta raps can also be considered a direct product of mainstream culture After the historical background that shaped the environment Tupac grew up in is explored in chapter two the third chapter will introduce three categories which can be used to systematize references of death in his songs In chapter 4 notable examples of his lyrics are categorized and their context is explained with special focus being put

on trends in American culture and how they influenced Tupac's biography in order to explain them. The concluding section will then discuss the possibilities an approach like this presents and identify what can be learned about culture by examining a this society's cultural products. The goal is not to solve contradictions prevalent in rap music but rather to emphasize their correlation with societies contradictions which manifest in its institutions and the cultural practices of its members.
