Today's business world cries out for people who can lead with a cross-cultural global perspective who can lead from the heart as well as the mind and address and manage problems on not just an integrated local level but also with a healthy holistic perspective. This book aims to provide a realistic message to help those who are looking for some answers for those who are looking for a way to advance their own skill set and progress both their careers and the organisation's current standing to move from being confused and insecure about strategies and tactics to positively contributing to not only their own but also to the employees' well-being and the business's overall purpose and intention. By basing the content upon real and relevant interesting modern-day perspectives, applications, requirements, opportunities and benefits all combined into a manual for thought and a practical framework for action, this book will significantly and realistically move the subject of spirituality forward. This book will be of interest to researchers, academics and students with a special interest in the positive influence of spirituality within the workplace and everyday healthy living.
