American Nation 14th Edition:

The Many Panics of 1837 Jessica M. Lepler, 2013-09-16 In the spring of 1837 people panicked as financial and economic uncertainty spread within and between New York New Orleans and London Although the period of panic would dramatically influence political cultural and social history those who panicked sought to erase from history their experiences of one of America's worst early financial crises The Many Panics of 1837 reconstructs this period in order to make arguments about the national boundaries of history the role of information in the economy the personal and local nature of national and international events the origins and dissemination of economic ideas and most importantly what actually happened in 1837 This riveting transatlantic cultural history based on archival research on two continents reveals how people transformed their experiences of financial crisis into the Panic of 1837 a single event that would serve as a turning point in American history and an early inspiration for business cycle theory

The Formation of Latin American Nations

Thomas Ward, 2018-10-25 This pioneering work brings the pre Columbian and colonial history of Latin America home rather than starting out in Spain and following Columbus and the conquistadores as they discover New World peoples The Formation of Latin American Nations begins with the Mesoamerican and South American nations as they were before the advent of European colonialism and only then moves on to the sixteenth century Spanish arrival and its impact To form a clearer picture of precolonial Latin America Thomas Ward reads between the lines in the *Chronicles of the Indies* filling in the blanks with information derived from archaeology anthropology genetics and common sense logic Although he finds fascinating points of comparison among the K'iche' Maya in Central America the polities of Colombia and the Chim of the northern Peruvian coast Ward focuses on two of the best known peoples the Nahua Aztec of Central Mexico and the Inka of the Andes His study privileges indigenous identified authors such as Diego Muñoz Camargo Fernando de Alva Ixtlilxochitl Inca Garcilaso de la Vega and Felipe Guaman Poma de Ayala while it also consults Spanish chroniclers like Hernán Cortés Bernal Diaz del Castillo Pedro Cieza de León and Bartolomé de las Casas The nation forming processes that Ward theorizes feature two forms of cultural appropriation the horizontal in which nations appropriate people and customs from adjacent

cultures and the vertical in which nations dig into their own past to fortify their concept of exceptionality In defining these processes Ward eschews the most common measure race instead opting for the Nahua altepetl the Inka panaka and the Kiche amaq His work thus approaches the nation both as the indigenous people conceptualized it and with terminology that would have been familiar to them before and after contact with the Spanish The result is a truly decolonial account of the formation and organization of Latin American nations one that puts the indigenous perspective at its center

The Statesman's Year-Book J. Scott-Keltie,2016-12-27 The classic reference work that provides annually updated information on the countries of the world
