Plane Truth Rose Bridger, 2013-10-09 As aviation is celebrated as one of the world's fastest growing industries with passenger numbers and cargo volumes projected to double in the next 20 years Plane Truth sounds a note of caution In addition to the environmental impact of airport expansion devouring farmland and wildlife habitats and aviation's impact of noise and air pollution on communities Rose Bridger reveals the extraordinary government subsidies for the aviation industry encompassing government expenditure on infrastructure to tax breaks all of which serve to support the industry in the face of rising oil prices and global economic downturn Disavowing greenwashing claims of fuel efficient aircraft and alternative fuels that will enable growth without climate change from British Airways to American Airlines the symbiotic relationship between aviation and the wider socio-economic problems facing humanity is manifest Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience **Parliamentary Debates (Hansard)**. Eco-Translatology (Hugs) Gengshen Hu, 2020-03-06 This book offers a panoramic view of the emerging eco paradigm of Translation Studies known as Eco Translatology and presents a systematic study of the theoretical discourse from ecological perspectives in the field of Translation Studies Eco Translatology describes and interprets translation activities in terms of the ecological principles of Eco holism traditional Eastern eco wisdom and Translation as Adaptation and Selection Further Eco Translatology approaches the phenomenon of translation as a broadly conceived eco system in which the ideas of Translation as Adaptation and Selection as well as translation as a textual transplant promoting an eco balance are integrated into an all encompassing vision Lastly Eco Translatology reinforces contextual uniqueness emphasizing the deep embeddedness of texts translations and the human agents involved in their production and reception in their own habitus It is particularly encouraging in this increasingly globalised world to see a new paradigm sourced from East Asian traditions but with universal appeal and applications and which adds to the diversity and plurality of global Translation Studies This book the first of its kind will substantially expand the horizons of Translation Studies a field that is still trying to define its own borders and will open a wealth of new possibilities Destined to become a milestone in the field of Translation

Interpretation and Adaptation Studies as well as eco criticism it will introduce readers to a wholly new epistemological intervention in Translation Studies and therefore will open new vistas of thoughts discussion and criticism
