Crowdsourced Data Management Guoliang Li, Jiannan Wang, Yudian Zheng, Ju Fan, Michael J. Franklin, 2018-10-12 This book provides an overview of crowdsourced data management. Covering all aspects including the workflow algorithms and research potential, it particularly focuses on the latest techniques and recent advances. The authors identify three key aspects in determining the performance of crowdsourced data management: quality control, cost control, and latency control. By surveying and synthesizing a wide spectrum of studies on crowdsourced data management, the book outlines important factors that need to be considered to improve crowdsourced data management. It also introduces a practical crowdsourced database system design and presents a number of crowdsourced operators. Self-contained and covering theory, algorithms, techniques, and applications, it is a valuable reference resource for researchers and students new to crowdsourced data management with a basic knowledge of data structures and databases.

Imprint of Action Krijn H. J. Boom, 2018 Cultural heritage which includes archaeology is recognized as serving an increasingly important role in European societal development But what exactly is the relevance of archaeology to present day citizens Imprint of Action investigates the sociocultural impact of archaeology through public activities These activities

provide an ideal setting for research as they represent a structured point of encounter between the public and archaeological heritage in analysing them aspects of people s connections to the past are revealed As such this research forms an integral part of the NEARCH project 2013 2018 As a basis for analysis survey data from three large scale case studies DOMunder Netherlands You R Archaeology Cross Europe and Invisible Monuments Greece was used The analysis and interpretation of the case studies is based on a newly created methodological framework which finds its roots in the broader culture and arts sector Results shows that activities encourage participation and interaction which engenders sociocultural impacts on participants most notably in knowledge increase skill development social relations and happiness Imprint of Action is the first large scale study focussing entirely on sociocultural impact in archaeology and as such is explorative in nature it provides unique insights into the workings of interaction and participation in archaeological events and openly shares qualitative and quantitative research data with the expanding field In doing so Imprint of Action lies the foundations for further analysis of the societal impact of both large and small scale heritage projects and identifies the incontestable values of archaeological heritage to the public *Planning & Changing* ,2013
