law Physics Edward C. Gruber, 1963 *The Publishers' Trade List Annual*, 1965 **The Portfolio Organizer** Carol Rolheiser, Barbara Bower, 2000-06-15 The Portfolio Organizer stands out as a superb contribution to the vital field of accountability for learning This book is distinguished by the presence and integration of a conceptual framework and a superb array of practical examples Nearly every key issue is anticipated and addressed in this accessible and clear treatment of a complex topic The reason that this book is so good is that the authors have been immersed in pioneering work on portfolios for a decade They have developed their ideas through work with their own students and through a wide range of research and evaluation projects including new initiatives involving elementary and secondary school students initial preparation of teachers and continuous professional development of teachers and administrators They have learned by grappling with the complex issues of introducing evaluation that simultaneously serves improvement and accountability goals

The result is a great practical book that can help educators develop their understanding and use of portfolios as a route to reform. This book provides educators with a flexible framework to guide decision making for effective and efficient use of portfolios in classrooms and schools. It is designed to assist classroom teachers, administrators, staff developers, and university professors in identifying, organizing, and acting upon the many challenges and possibilities inherent in portfolio implementation. Specifically, *The Portfolio Organizer* targets the major categories of decision making and assists teachers in making decisions about effective portfolio implementation in classrooms. In addition, the book addresses professional portfolios and can be used by educators to develop and maintain their own portfolios. Note: This product listing is for the Adobe Acrobat PDF version of the book.

Directory of Distance Learning Opportunities Modoc Press, Inc., 2003-02-28. This book provides an overview of current K-12 courses and programs offered in the United States as correspondence study or via such electronic delivery systems as satellite cable or the Internet. The Directory includes over 6,000 courses offered by 154 institutions or distance learning consortium members. Following an introduction that describes existing practices and delivery methods, the Directory offers three indexes: Subject Index of Courses Offered by Level, Course Level Index, Geographic Index. All information was supplied by the institutions. Entries include current contact information, a description of the institution, and the courses offered, grade level, and admission information, tuition and fee information, enrollment periods, delivery information, equipment requirements, credit and grading information, library services, and accreditation.

Contemporary Issues in Curriculum Allan C. Ornstein, Edward Pajack, Stacey B. Ornstein, 2011. Featuring 25% new content, the fifth edition of *Contemporary Issues in Curriculum* addresses issues in implementation, planning, and evaluation of curriculum at all levels of learning. Divided into six parts: Philosophy, Teaching, Learning, Instruction, Supervision, and Policy, the new edition of this balanced yet eclectic text features ten new chapters written by notable authors, including Larry Cuban, Howard Gardner, Andrew Hargreaves, Linda Darling-Hammond, and Stanley Pogrow. With each new chapter

readers are asked to consider a new author's viewpoint, thought process, and conclusions about significant and current curriculum issues from traditional and commonly accepted beliefs to more controversial and contemporary ideas. Through a variety of learning aids and discussion questions, readers are encouraged to analyze and debate these issues to formulate their own opinions and begin to shape their own original ideas about the future direction of curriculum. Focus Questions at the beginning of each chapter offer an advance organizer and encourage critical thinking. Discussion Questions at the end of each chapter encourage student analysis as well as opportunities for further thought and classroom dialogue. Case Studies at the end of each part initiate thoughtful discussion of how curriculum issues are played out in the in-service world. Pro-Con Chart features succinctly detail the argument and counterargument for the issue covered in each part, allowing readers to better understand the complexities. Curriculum Scholar Profiles at the beginning of each section highlight the achievements of six prominent leaders in the curriculum field.
